This document is based on guidance from Keeping Children Safe in Education (KCSIE) (2026 version) and Working Together to Safeguard Children 2023. If the Government re-issues this guidance during the 2026/27 period, we will ensure your policy is compliant with any changes.

Introduction and Policy Aims

'Moss Lane is a happy, safe and inclusive community where expectations are high and where everyone is cared for and valued. Through an active approach, we promote independent, enthusiastic, confident and successful learners.'

Safeguarding is Everyone's Business'
'It could happen here'

We recognise our moral and statutory responsibility to safeguard and promote the welfare of all children. Moss Lane School has a duty to keep children safe. This includes how we protect children from experiencing harm and how we should respond when we suspect or confirm that a child is being harmed.

Children are at the centre of everything we do at Moss Lane School. We are committed to providing our children with a sense of belonging and an environment that is welcoming, safe, valuable and respectful. Adults in our school know that keeping children safe is everybody's responsibility and that all children, regardless of age, gender, culture, language, race, ability, sexual identity, religion or lack of religion have equal rights to protection and opportunities.

We aim to make sure that:

- The welfare of the child is paramount.
- All staff maintain an attitude of "It could happen here".
- We will always act in the best interests of the child and ensure that our decisions around safeguarding take a child-centred and coordinated approach.
- The school has a clear process in place, that is shared with and followed by all members of the school community, when there is a safeguarding concern.
- Our staff are well trained to recognise the signs of abuse, neglect and exploitation such that they understand what their responsibilities are and how they should respond when they identify a concern.
- We keep track of children known or thought to be at risk of harm.
- We communicate well with all those involved when there is a concern about a child, including parents/carers, other children, staff and agencies. This includes sharing information quickly and appropriately with external agencies, such as the police and children's services, to get children the support and help they need in good time.

Definitions

KCSIE defines Safeguarding as the process for protecting children from harm and abuse, whether that is within or outside the home, as well as online. This includes:

- Providing help and support to meet the needs of children as soon as problems emerge (this bullet point is new)
- Protecting children from maltreatment, whether that is within or outside the home, including online
- Preventing the impairment of children's mental and physical health or development
- Making sure that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

Child(ren) includes everyone under the age of 18.

Child looked after (CLA) used internally in Surrey County Council rather than looked after child (used in statutory guidance)

C-SPA refers to the Children's Single Point of Access.

DSL where appropriate also refers to Deputy Designated Safeguarding Lead (DDSL)

Early help is support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse.

The local safeguarding partnership has three partners:

1. Chief Executive of Surrey County Council (Children's Services)

2. Chief Executives of Surrey Heartlands and Frimley Integrated Care Boards, and
3. The Chief Constable of Surrey Police

MAP refers to the Surrey Multi-Agency Partnership.

Parent refers to birth parents and other adults who are in a parenting role, for example stepparents, foster carers and adoptive parents.

School Unless otherwise specified, 'school' means all schools, whether maintained, non-maintained or independent schools, including academies and free schools, non-maintained special schools, maintained special schools and alternative provision, including pupil referral units.

Social Care refers to Children's Services in the area in which the child is resident, unless a child is a Child Looked After then this will be the Children's Services in their home authority.

Staff refers to all those working for or on behalf of the school, full or part time, temporary or permanent, in either a paid or voluntary capacity. This includes, but is not limited to, employed staff, contractors, volunteers, governors/trustees, supply staff and self-employed staff.

Statutory means what has been decided or is controlled by the law. Statutory guidance tells us what schools and local authorities must do to follow the law.

Moss Lane School will publish our safeguarding and child protection policy on our website and hard copies will be available on request from the school office.

Key Personnel

Designated Safeguarding Lead (DSL) is: Victoria Abbott

Contact details: 01483 417214

Email: head@moss-lane.surrey.sch.uk or dsl@moss-lane.surrey.sch.uk

Deputy DSL(s) is/are: Amy Betterton, Gilly Forbes Patching and Maddy Fox

Contact details: 01483 417214,

Email: dsl@moss-lane.surrey.sch.uk

The nominated Safeguarding Governor is: Tom Crees

Contact details: 07484 270402

Email: tcrees@moss-lane.surrey.sch.uk

Headteacher is: Victoria Abbott

Contact details: 01483 417214

Email: head@moss-lane.surrey.sch.uk

Special educational needs and disabilities coordinator (SENDCo)

Designated teacher for young carers (not statutory but good practice)

Designated teacher for children looked after

Contact details: 01483 417214, Gilly Forbes Patching

Email: dsl@moss-lane.surrey.sch.uk or senco@moss-lane.surrey.sch.uk

Chair of Governors: Ben Cross

Contact details: bcross@moss-lane.surrey.sch.uk

Mobile = 07799153805

Children's Services

Children's Single Point of Access (C-SPA)

Anyone can contact the C-SPA about a child, young person or parent/carer who needs support in Surrey. This could be a concern about how the child is developing, issues that the parent or carer is experiencing, or you suspect a child is being neglected or subjected to physical, sexual, or emotional abuse.

Surrey's Child Protection Consultation Line for advice and support (0300 470 9100 option 3).

If a child is in **immediate danger**, the police should be contacted on 999.

If it is not an emergency, but there is a concern that a child is at risk, C-SPA should be contacted by phone on 0300 470 9100

Requests for support should be sent securely by email to cspa@surreycc.gov.uk using the [Request for Support Form](#).

If you have children attending your school from other local authorities, you may wish to also include their contact details here - this government website will help identify which local council to report child abuse to and their contact details: [Report child abuse to a local council - GOV.UK](#).

Emergency Duty Team (EDT)

Emergency Duty Team (EDT) provides an emergency social care service for urgent situations which are out of normal office hours. If your call is not answered, please do leave a message and your contact details for someone to get back to you.

EDT is available **5pm-9am, Monday – Friday, Weekends 24 hours a day.**

Phone: 01483 517898

Email: edt.ssd@surreycc.gov.uk

Local authority designated officer (LADO)

Every local authority has a legal responsibility to appoint a LADO who is responsible for organising the response to concerns/allegations that an adult who works with children may have caused them or could cause them harm. They will be informed within one working day of any allegations that come to our attention. The LADO will give advice and guidance to employers, such as the headteacher and the chair of governors/chair of trustees, to make sure that any allegation is dealt with fairly and quickly, ensuring that the child is protected effectively.

The LADO can be contacted by: Email: LADO@surreycc.gov.uk

Telephone: 0300123 1650 option 3

Online: [LADO Referral Form](#)

The Law (legislation and statutory guidance)

In addition to Surrey Safeguarding Children Partnership's (SSCP) [arrangements](#), Moss Lane school also follows the laws and statutory guidance below:

- [Working Together to Safeguard Children 2023](#) which sets out the multi-agency working arrangements to safeguard and promote the welfare of children and young people and protect them from harm; in addition, it sets out the statutory roles and responsibilities of schools.
- ['What to do if you are Worried a Child is Being Abused' 2015 - Advice for Practitioners](#)
- [Keeping Children Safe in Education \(KCSIE, 2026\)](#) is statutory guidance issued by the Department for Education (DfE) which all schools and colleges must have regard to when carrying out their duties to safeguard and promote the welfare of children.
- [Early years foundation stage \(EYFS\) statutory framework](#) is statutory guidance which sets standards that school and childcare providers must meet for the learning, development, and care of children from birth to 5 years in Ofsted registered settings. This should be read alongside KCSIE for reception children.
- [Relationships and sex education \(RSE\) and health education - GOV.UK](#) This is statutory guidance from the Department for Education issued under Section 80A of the Education Act 2002 and section 403 of the Education Act 1996

- The [Children Act 1989](#) is the main source of child safety law for England and Wales. The Act gives the basis for most of children's services' duties and responsibilities towards children and their families. It also provides the legal framework for the child protection system. The [2004](#) amendment is used alongside the Act.
- The [Children Act 1989 Care Planning, Placement and Case Review](#) sets out what responsibilities education settings have for children looked after by the local authority.
- The [Human Rights Act 1998](#) sets out the core rights and freedoms that everyone in the UK is entitled to and contains the Articles and protocols of the [European Convention on Human Rights](#) (the Convention) that apply in the UK. Experiencing harassment, violence, and/or abuse, including that of a sexual nature, may breach any or all of these rights.
- The [Equality Act 2010](#) states that schools and colleges must not unlawfully discriminate against children because of their sex, race, disability, religion or belief, gender reassignment, pregnancy and maternity, or sexual orientation (called protected characteristics). Therefore, we can take positive action to deal with disadvantages affecting our children with protected characteristics to make sure their needs are met. The [Equality Act 2010: advice for schools](#) advises us further.
- As children get older, some sports are typically taught and played in single-sex groups. The Equality Act 2010 contains an exception in relation to single-sex sport whereby we can separate children according to their biological sex without discriminating lawfully against them where physical strength, stamina or physique of the average girl would put her at a disadvantage in competition with the average boy (or vice versa) or to ensure safety. Where there are no safety concerns and a child makes a request relating to how they participate, we will consider the request in light of the advice on "considering requests for support with social transition" (see KCSIE page 65).
- The [Public Sector Equality Duty \(PSED\)](#) states that we have to be mindful of the need to eliminate unlawful discrimination, harassment and victimisation. Some children may be more at risk of harm from specific issues such as sexual violence, homophobic, biphobic or transphobic bullying, or racial discrimination. It is important to make sure we foster good relations between those who share a protected characteristic and those who do not, and work to make sure children have equal opportunities. We give specific attention to this duty when we write our policies or make any decisions about how our school is run.
- [Childcare \(Disqualification\) and Childcare \(Early Years Provision Free of Charge\) \(Extended Entitlement\) \(Amendment\) Regulations 2018](#) and the [Childcare Act 2006](#) set out who is disqualified from working with children. Remove if this does not apply to your school (only applies to schools with children under 8).

Regulations and safeguarding requirements relating to school premises

Toilets

The school provides mixed-sex toilet facilities for children up to the age of seven, appropriate to the age and needs of pupils within our infant school. Toilet arrangements are managed to ensure that all children are able to use the facilities safely and with appropriate privacy, dignity and respect. If a child feels uncomfortable using the usual toilet facilities or requests an alternative arrangement, staff will listen to the child and respond sensitively. Where reasonably practicable, the school will provide access to a suitable alternative toilet facility, provided that this does not compromise the safety, privacy, dignity or welfare of the child or of other pupils. Individual arrangements may also be made where required because of a child's SEND, medical needs, personal care needs or other individual circumstances. Where an alternative arrangement is required on an ongoing basis, this will be discussed with the child and, where appropriate, their parents/carers. The agreed arrangements will be communicated to relevant staff on a need-to-know basis, recorded appropriately and reviewed regularly.

Children will never be prevented from accessing a toilet when they need to do so. Staff will remain alert to any changes in a child's toileting behaviour, reluctance or anxiety about using the toilets, or other concerns that could indicate a safeguarding, medical or welfare issue, and will respond in accordance with the school's safeguarding and pastoral procedures.

Changing Rooms, Changing and Showers

Children normally come to school wearing their PE kit on designated PE days and therefore do not routinely need to undress or change for PE during the school day. Where children need to change clothing for another reason, for example for a school performance, sports club, disco or other activity, they will usually change with their class or group in their classroom or another designated and appropriately supervised area. Staff will ensure that children's privacy, dignity and safeguarding needs are respected at all times, taking account of their age, individual needs, SEND, medical needs and level of independence. Children will be encouraged to dress and undress independently wherever they are able to do so, and staff will only provide physical assistance where this is necessary and appropriate.

Where a child asks to change privately, staff will listen to and respect the child's wishes and, wherever reasonably practicable, provide a suitable private or alternative changing space without compromising the child's safety or appropriate supervision. Arrangements will be considered sensitively on an individual basis and relevant information will be shared only with those staff who need to know. Any ongoing individual arrangements will be agreed with the child and, where appropriate, their parents/carers and recorded and reviewed as necessary.

Children do not routinely use showers at school. A shower would only normally be used where there is a clear welfare, hygiene or medical need, for example where a child has been unwell or has significantly soiled themselves. Any support with washing, changing or intimate care will be provided sensitively and in accordance with the school's Intimate Care Policy, safeguarding procedures and agreed individual care arrangements. Staff will protect the child's dignity and privacy while ensuring appropriate safeguarding arrangements are maintained. Wherever possible, children will be encouraged to undertake their own personal care independently, with adult support limited to what is necessary. Parents/carers will be informed where significant personal or intimate care has been required, and any safeguarding or welfare concerns arising during changing or personal care will be recorded and reported in accordance with the school's safeguarding procedures.

Roles and responsibilities

Everybody in our school has a responsibility for safeguarding. Some members of our school have specific safeguarding responsibilities.

All School Staff

- Sign to say they have read and understood Part 1 of statutory guidance KCSIE (2026) annually.
- Have a responsibility to provide a safe environment in which children can learn.
- Have a responsibility to establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
- Will follow the school's procedures for identifying and reporting any concerns and issues about the school's online filtering and monitoring systems.
- Will follow the school's safeguarding and child protection processes and procedures, sharing information quickly when they have a concern about a child's safety and wellbeing, even when they are unsure.
- Will, whenever necessary, refer safeguarding or child protection concerns to external agencies, such as the police, children's services and the LADO.
- Attend safeguarding training appropriate to their role and are familiar with key policies, including this policy and the staff behaviour policy (code of conduct).
- Create a culture where children who identify as lesbian, gay, bisexual, or are questioning their gender feel safe, can speak out and share concerns.
- Will be aware of indicators of abuse, neglect, exploitation and modern slavery (see below) understanding that children can be at risk of harm inside and outside of the school, inside and outside of home and online.
- Exercising professional curiosity and knowing what to look for is vital for the early identification of abuse, neglect and exploitation so that staff are able to identify cases of children who may be in need of help or protection.

What staff need to know is covered in the training section of this policy.

The Headteacher

This policy and other safeguarding related policies and procedures (such as the staff behaviour policy, whistle blowing procedures) are shared at induction, understood by all staff, including temporary staff and volunteers, and are being followed at all times.

- Staff receive safeguarding training that is updated regularly.
- Parents and carers are aware of this policy and where they can access a copy.
- The DSL is given the additional time, funding, training, resources, and support needed to carry out the role effectively and there is cover by an equivalently trained deputy if the DSL is absent.
- Visitors are appropriately supervised or escorted, where necessary.
- Systems are in place for children to express their views and give feedback, which are used to inform the whole school approach to safeguarding.
- They become the 'case manager' when an allegation is raised about a member of staff and make the final decision regarding all low-level concerns.

Early years

In EYFS there are enough staff per child (staff ratios), where relevant and applicable. Each child in the Early Years Foundation Stage is assigned a key person (their class teacher). Appropriate arrangements are put in place for the supervision of staff who have contact with children and families.

The Designated Safeguarding Lead

Victoria Abbott has the lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). The DSL is the Headteacher. Moss Lane School has three deputy DSLs to support the DSL in their role. While the DSL may hand over some activities to a deputy, the DSL will always have the ultimate responsibility for keeping children safe.

The full responsibilities of the DSL and the deputy DSL(s) are listed in their job descriptions. The DSL's responsibilities include, but are not limited to:

- Reading and following KCSIE.
- Always being available during term time (during school hours) for staff in the school to discuss any safeguarding concerns. Appropriate and adequate cover arrangements will be arranged by the DSL and the school leadership for any out of hours/out of term activities.
- Ensuring there are cover arrangements in place when the DSL is unavailable due to illness, leave, or other circumstances. This will include any Deputy DSLs accessing a shared mailbox to ensure that safeguarding concerns are received, monitored and acted upon without delay.
- Working together with all staff to understand the whole picture when there are safeguarding concerns, providing them with advice, support and expertise.
- Contributing to the assessment of children, including taking part and/or supporting staff to take part in strategy discussions, child protection conferences and meetings between multiple agencies.
- Working together with and supporting parents/carers and families who may be facing challenging circumstances and, when there are safeguarding concerns, making parents/carers aware of the school's role in making referrals about suspected abuse, neglect and exploitation.
- Understanding the importance of sharing information, including making appropriate referrals to relevant agencies (for example, children's services, the police, the Channel Programme and/or the Disclosure and Barring Service (DBS)) and supporting staff who make referrals directly.
- Understanding and following Surrey Safeguarding Children Partnership (SSCP) safeguarding procedures
- Have a secure working knowledge of SSCP procedures and understand the assessment process for providing early help and statutory intervention, in line with Surrey's Continuum of Need Indicators.
- Keeping the headteacher up to date with safeguarding issues.
- Having the lead responsibility for online safety, including oversight and checking the effectiveness of the school's filtering and monitoring systems and their reports.
- Being aware of the requirement for children to have an Appropriate Adult, as described in PACE Code C 2019.
- Making sure child protection files are up to date and kept as per record keeping section.

- Making sure that all staff have access to this policy (and the wider safeguarding procedures), the policy is available publicly and reviewed annually.
- Making sure that all adults who work in or for the school have an adequate and appropriate safeguarding induction, regularly updated safeguarding training and annually sign to say they have read the relevant part of KCSIE.
- Working alongside the governing board and SLT to review and update procedures and how they are being implemented, including jointly completing and submitting the biennial (s157 s175) Statutory Audit for Safeguarding Arrangements and Termly Safeguarding Data Collections via PHEW to Surrey County Council.
- Promoting the educational outcomes of children who have or had a social worker, by sharing appropriate child protection information with the teacher and leaders.
- Encouraging a culture of listening to children, taking into account their wishes and feelings when any plans are put in place to protect them.

The Deputy Designated Safeguarding Lead(s)

- Will be trained to the same standard as the DSL and the role is explicit in their job description.
- Will take on the designated safeguarding lead's responsibilities if they are unavailable. If the designated safeguarding lead is long-term absent, a deputy will temporarily take over as the designated safeguarding lead.
- If in your school, a deputy DSL has been delegated specific roles that are included in the DSL description above, please remove them and place them here.
- Further responsibilities of the DSL are listed elsewhere in this policy. For a detailed explanation of the DSL's responsibilities, see Annex C of KCSIE.

The Governing Body

The non-statutory [Maintained schools governance guide](#) sets out the roles, responsibilities and legal duties for governing boards

- All members of The Governing Body understand and fulfil their responsibilities to ensure that:
- Safeguarding, and the child's best interests, wishes and feelings, are considered in everything the school does. Everyone at the school is involved in the whole school approach to safeguarding and online safety is a theme throughout.
- The school's policies, procedures and training follow the local safeguarding partnership arrangements and the law, including the school's duties under the Human Rights Act 1998, Data Protection Act 2018 and Equality Act 2010.
- The school's leadership team are held to account for the school's safeguarding arrangements.
- Safeguarding is a standing item on the agenda for Governing Body meetings.
- The appointed designated safeguarding lead (DSL) is given the additional time, funding, training, resources and support needed to carry out the role effectively.
- An experienced governor/trustee takes leadership responsibility for the school's safeguarding arrangements.
- There is an appointed designated teacher for looked after children who is appropriately trained.
- The governing body takes into account children who are more at risk of harm and any barriers that can make it difficult to recognise abuse and/or neglect, for example children with special educational needs and disabilities (SEND).
- Safeguarding and child protection files are maintained as set out in Annex C of KCSIE.
- The school adds to multi-agency working and shares information appropriately and in a timely manner.
- All staff receive regular safeguarding information, updates and in-depth training.
- Staff sign to say they have read the appropriate part of KCSIE. Governors/Trustees sign to say they have read and understood KCSIE and this policy.
- Children are taught about keeping safe, including when online.
- The governing body does all that they reasonably can to limit children's exposure to online risks from the school's online IT systems and assign a member of the senior leadership team and a governor/trustee to ensure standards are met.
- Appropriate safer recruitment processes and procedures are in place.
- Procedures are in place to identify and address children absent from education, including persistent absence, and when safeguarding concerns coincide.
- There are procedures for reporting and managing safeguarding concerns about adults who work for the school. The chair of governors will manage any allegations against the headteacher.
- There are effective safeguarding arrangements for when the site is being hired/let.
- All members of the governing board receive safeguarding training at induction, which is regularly updated.
- The SSCP is informed in line with local requirements about the discharge of duties via the Biennial (s 157 s 175) Statutory Audit for Safeguarding Arrangements and Termly Safeguarding Data Collections via [PHEW](#) to Surrey County Council.

The Safeguarding Link Governor

- They meet with the DSL and visits the school regularly asking questions that allow them to monitor how the school's safeguarding policies and procedures are being put into practice.
- Each year, they are part of the biennial safeguarding audit, led by the DSL and headteacher, and make sure it is submitted via PheW.
- They are the governing board's safeguarding specialist, feeding back their findings following school visits and meetings with the DSL.
- They attend appropriate training that guides them in how to monitor and progress any areas of weakness in the school's safeguarding arrangements.
- They keep up to date with the SSCP's safeguarding arrangements and guidance.

What to do if you have concerns about a child's welfare

If staff have concerns about a child's welfare, they must act on them immediately by following the procedures below. Our staff can use the [What to do if you're worried a child is being abused](#) guidance with the school's procedures. We work hard to make sure our staff and safeguarding team are approachable and available, such that anyone can speak to them about any concern quickly, no matter how small or whether there is evidence.

We recognise the significant emotional impact being involved with or aware of safeguarding incidents can have. Approach our safeguarding team if you need any support during or following a safeguarding incident. The names of the DSL and deputies are clearly advertised around the school. Upon arrival at the school all visitors are told who the DSL/ Deputy DSLs are and are told to report any concerns to them. Visitors receive a safeguarding leaflet upon signing in.

If a child is in immediate danger, or is suffering or likely to suffer significant harm. the police on 999 if a child is in immediate danger. Anyone can make a referral to children's services if a child is suffering or likely to suffer significant harm. Usually, the DSL or deputy makes the referral. For children's services' contact details, click here. If you make a direct referral, you will update the DSL or a deputy as soon as is practically possible.

Disclosures

We recognise that it takes a lot of courage for a child to disclose they are being harmed.

Staff know that:

- Children may not feel ready or know how to tell someone they are being harmed.
- The child may not realise what is happening to them is harmful.
- They may feel embarrassed, humiliated or are being threatened. This could be due to their vulnerability, disability, sexual orientation and/or language barriers.

Our staff know they must show professional curiosity, i.e. explore and try to understand what is happening for a child, rather than take what is being said on face value or making assumptions. We encourage staff to ask the child if they are OK or if they can help in any way. A child who makes a disclosure may have to tell their story more than once, such as to the police and social workers. At Moss Lane School, we know how important it is that a child's first experience of talking to a trusted adult about a worry is a positive one.

Handling a disclosure

- Listen to them carefully and believe in what they are saying. Do not be afraid of silence moments.
- Be careful not to express your own views or feelings and stay calm.
- Do not investigate. Only ask enough questions to work out if you need to share this matter with the DSL or a deputy. Only ask open questions, such as: How? When? Who? Where? and open statements, such as "Tell me", "Describe" and "Explain". Otherwise, you may invalidate your and the child's evidence in any later court proceedings.
- If there are injuries or marks on the child, do not examine the child intimately or take pictures.
- Reassure them that they have done the right thing by telling you. Do not say to the child that you wish they had told you sooner.
- Do not automatically offer physical touch to comfort the child. Consider what may be comforting for the child, rather than how you prefer to be comforted.
- Tell the child it is not their fault, and you are taking them seriously.
- Explain what you will do next. Tell the child that you cannot keep what they have told you a secret and that you will pass this information onto someone who can help.

After a child has made a disclosure

- Write up the conversation as soon as possible. At Moss Lane we use CPOMS however there is also a paper based 'pink safeguarding form' available if CPOMS isn't working. Pink forms are that is in every classroom and the office. Make sure the DSL or a deputy is aware of the disclosure. If appropriate, contact children's services and/or the police directly and tell the DSL as soon as possible.
- Do not share the disclosure with anyone else unless children's services, the police or another relevant agency involved in the safeguarding process tells you to.
- Get support for yourself if you need it.

Recording a disclosure or safeguarding concern

- Make an initial record of the information related to the concern as soon as possible on CPOMS. (Online reporting system)
- Record the date, time, place and persons present.
- Use the child's own words, verbatim where possible, and stick to the facts. Avoid making assumptions and do not put your own judgement on it.
- Record any noticeable non-verbal behaviour. Detail any visible marks or injuries and record them on a body map.
- Keep any original notes you have made on file.
- Do not ask children to make written statements themselves or sign records.
- In the event of CPOMS not working complete a pink safeguarding form that is in every classroom and the office. Include details of: -

- Date
- Time
- Place
- Who was present
- Context
- Details of disclosure/concern (using the child's words)
- Demeanour/non-verbal behaviours of the child
- Child's voice
- Any injuries (using a body map to record these)
- Rationale for decision making
- Actions taken

Concerns about a child who is not in immediate danger, or is suffering or likely to suffer significant harm

First, speak to the DSL or a deputy. If in exceptional circumstances, the DSL or a deputy are not available, this will not delay you from taking appropriate action. Instead, you will speak to a senior member of staff or take advice from children's services, if necessary.

How children can report concerns

At Moss Lane School, it is essential that children can tell us how they are feeling and know we will take it seriously. We aim to create an environment full of 'reachable moments' which encourages children to feel safe enough to open up about their concerns. Children can confidently report any worries they have about their lives, both in and out of school, by:

- Speaking to an adult they trust.
- Putting a written or an anonymous disclosure in a worry box/worry monster.
- Add in here the other ways children can report concerns, such as the role of bullying ambassadors.

Comment on how you make children aware of the systems in place, such as publishing safeguarding information throughout the school, assemblies and in the curriculum.

We know children try to get their voice heard not just through what they say but how they behave, as pointed out in the NSPCC's voice of the child briefing. When there are behavioural issues or changes in a child's behaviour we take a safeguarding first approach, including considering if the child is communicating an unmet need and/or abuse. For children who are pre-verbal or non-verbal, observing behaviour and presentation is even more important for understanding the child's lived experience.

Family/Early help

Early help is support for children of all ages that improves a family's resilience and outcomes or reduces the chance of a problem getting worse. At Moss Lane School we are keen to provide support to families as soon as a problem becomes visible. If an early help assessment is appropriate, the DSL or a deputy will lead on working together with other agencies and set up an inter-agency assessment, as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner.

Our DSL and/or deputies use the [Helping families early - Surrey County Council](#) information to explore emerging needs and – with consent from the child or family, complete an Early Help Assessment to ensure all identified needs are supported by the appropriate agencies. The partnership's [Early-Help-Strategy-2024-2027](#) sets out their aims for how professionals work effectively together to provide early help.

If early help support is appropriate, it will be kept under constant review. A referral to children's services may be required if the child's situation doesn't appear to be improving. The DSL is aware of the local escalation policy and procedures.

We are aware any child may benefit from support before statutory intervention, including from universal services and community-based Family /Early Help, or the targeted early help level of Family Help. Staff who work directly with children will be particularly alert to the potential need for early help for children listed under Part 1, paragraph 17 of KCSIE.

Referral to children's services

Concerns about a child or a disclosure should be discussed with the DSL who will help decide whether a referral to children's services is appropriate. The DSL and deputy are aware of the [Continuum of Support for Children and Families in Surrey](#) and [Continuum of Support Indicators](#) which will be used to inform their response to any safeguarding concern. If a referral is needed, then the DSL should make it. However, anyone, including children, can make a referral and if for any reason a staff member thinks a referral is appropriate and one hasn't been made, they can and should consider making a referral themselves. Where referrals are not made by the DSL, the DSL should be informed as soon as possible.

The school should try to discuss any concerns about a child's welfare with the parent/carers and where possible obtain their consent before making a referral to the C-SPA. However, the school should not discuss concerns with parents/carers when:

- it would place the child at increased risk
- or sexual/organised abuse is suspected
- or the fabrication of an illness is suspected
- or it could impede a Police investigation or Social Work enquiry

Where there are doubts or reservations about involving the child's family, the DSL should clarify with the C-SPA or the Police whether the parents/carers should be told about the referral and, if so, when and by whom. This is important in cases where the Police may need to conduct a criminal investigation. The child's views should also be considered.

If it is suspected that a child is suffering, or is likely to suffer, harm or abuse the DSL must contact the C-SPA. If the DSL feels unsure about whether a referral is necessary, they can phone the C-SPA consultation line to discuss concerns.

When a child needs urgent medical attention and there is suspicion of abuse the DSL should take the child to the accident and emergency unit at the nearest hospital, having first notified the C-SPA. The DSL should seek advice about what action the C-SPA will take and about informing the parents/carers, remembering that parents/carers should normally be informed that a child requires urgent hospital attention.

If you have not had any feedback from children's services within 72 hours of making the referral, this must be followed up. If after a referral, the referrer is dissatisfied with the response from children's services and/or the child's situation does not appear to be improving, the DSL (or whoever made the referral) should press for re-consideration to ensure their concerns have been addressed and, most importantly, the child's situation improves. The [local escalation policy \(Finding a Solution Together \(FaST\) resolving professional differences procedure\)](#) will be used, where necessary.

If a child has experienced or is at risk of female genital mutilation

Female genital mutilation (FGM) is illegal in England. It involves removal, part removal or injury to the female genital internal or external organs for non-medical reasons. It is sometimes known as 'cutting' or female 'circumcision'.

Teachers

For this section only, teachers means qualified teachers or persons who are employed or engaged to carry out teaching work in schools and other institutions. All staff should speak to the DSL (or a deputy) when a concern about female genital mutilation (FGM) arises. If a teacher suspects that FGM has been carried out on a child or believes that the child is at risk of FGM, they will follow their internal safeguarding procedures.

Teachers who come to know, in the course of their work, that FGM has been carried out on a child must directly report this to the police. Failure to do so will result in disciplinary sanctions. The teacher should tell the DSL or a deputy who will support them in making a direct report to the police. The teacher may need to support a referral to children's services. Staff will never examine children.

Other members of staff

Other members of staff who establish that an act of FGM appears to have been carried out on a child or suspect a child is at risk of FGM, will follow the same procedures as with any other concern, i.e., will speak to the DSL or a deputy and follow local safeguarding procedures.

Useful links:

[Mandatory reporting of female genital mutilation: procedural information](#)

Concerns about nudes or semi-nudes

Responding to any incident that comes to your attention:

- **Report** it to your designated safeguarding lead (DSL) or equivalent immediately, using the school's reporting procedures set out in this policy.
- **Never** view, copy, print, share, store or save the imagery yourself, or ask a child to share or download – this is illegal.
- **If you have already viewed the imagery** by accident (e.g., if a young person has shown it to you before you could ask them not to), report this to the DSL (or equivalent) and seek support.
- **Do not delete** the imagery or ask the young person to delete it.
- **Do not** ask the child/children or young person(s) who are involved in the incident to disclose information regarding the imagery. This is the responsibility of the DSL or a deputy.
- **Do not** share information about the incident with other members of staff, the young person(s) it involves or their, or other, parents and/or carers.
- **Do not** say or do anything to blame or shame any young people involved.
- **Do** explain to them that you need to report it and reassure them that they will receive support and help from the DSL or a deputy.

Staff reserve the right to confiscate a device in the possession of a child if they have concerns about sharing nudes or semi-nudes in relation to the device. This is consistent with the [Searching, screening and confiscation: advice for schools guidance](#).

The DSL will follow the government's [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#) guidance. Once they are aware of an incident, the DSL will hold an initial review meeting with appropriate staff. This may include the staff member(s) who heard the disclosure and the safeguarding or leadership team who deal with safeguarding concerns.

The initial review meeting will consider the initial evidence and aim to establish:

- Whether there is an immediate risk to any child or young person.
- If a referral should be made to the police and/or children's social care.
- If it is necessary to view the image(s) in order to safeguard the child or young person – in most cases, images or videos should not be viewed.
- What further information is required to decide on the best response.
- Whether the image(s) has been shared widely and via what services and/or platforms. This may be unknown.
- Whether immediate action should be taken to delete or remove images or videos from devices or online services.
- Any relevant facts about the children or young people involved that would influence risk assessment.
- If there is a need to contact another education school or individual.
- Whether to contact parents or carers of the children or young people involved – in most cases they should be involved.

The DSL will make an immediate referral to the police and/or children's services if:

- The incident involves an adult.
- There is reason to believe that a child or young person has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs).
- What they know about the images or videos suggests the content depicts sexual acts that are unusual for the young person's developmental stage or are violent.

- The images involve sexual acts and any child in the images or videos is under 13.
- They have reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example if they are presenting as suicidal or self-harming.
- They become aware of the making or sharing of nudes or semi-nudes.

If none of the above applies, we can decide to respond to the incident without involving the police or children's services. We may escalate the incident at any time if further information/concerns are disclosed at a later date. First, the DSL will be confident that they have enough information to assess the risks to any child involved and the risks can be managed within our school's pastoral support, behaviour procedures and, if appropriate, the local network of support.

The DSL or a deputy will contact children's services if any child or young person involved is already known to them. If, because of the investigation, the DSL (or equivalent) believes there are wider issues that meet the threshold for children's services' involvement, they will make a referral in line with this policy and local safeguarding procedures.

Viewing the imagery

The decision to view any imagery will be based on the professional judgement of the DSL or a deputy and will comply with this policy. Imagery will never be viewed if the act of viewing will cause significant distress or harm to a child. If a decision is made to view imagery, the DSL will be satisfied that viewing:

- Is the only way to make a decision about whether to involve other agencies because it is not possible to establish the facts from any child or young person involved.
- Is necessary to report it to a website, app or suitable reporting agency (such as the IWF) to have it taken down or support the child or parent/carer in making a report.
- Is unavoidable because a child or young person has presented it directly to a staff member or nudes or semi-nudes have been found on a school device or network.

Deletion of images

If the school has decided that other agencies do not need to be involved, then consideration will be given to deleting imagery from devices and online to limit any further sharing. This decision will be based on the DSL's or a deputy's judgement in line with the guidance. There is further information in the [Sharing nudes and semi-nudes](#) section of this policy.

Child-on-child abuse (including harassment and violence)

Responding to allegations of child-on-child abuse

- Follow the 'handling a disclosure' procedure set out above. You must make a record of the allegation and inform the DSL or a deputy.
- If the DSL and a deputy are not available due to emergency circumstances, the staff member will speak to a member of the senior leadership team and/or contact the relevant children's services.

The DSL or a deputy will make a decision from the following options depending on the level of risk or harm:

1. Manage the concern internally providing pastoral support to all those involved.
2. Complete an early help assessment.
3. Make a referral to children's services and/or, where necessary, the police. The DSL may choose to consult children's services to assist them with making a decision.
4. The police will still be informed of any criminal offences. If the child is aged under the criminal age of responsibility, the police will take a welfare approach.

The DSL or a deputy will contact the parents or carers of the children involved at the earliest opportunity and where appropriate. Records will be kept of all concerns, discussions had, decisions made and any outcomes reached. If a criminal offence has been committed or is being investigated, the DSL will work closely with the police to avoid impacting the criminal process while protecting children or following disciplinary procedures.

Where the DSL, children's services or the police decide the concern should be handled by the school internally, we will thoroughly investigate the concern using our behaviour policy and processes. A risk assessment and prevention plan

will be completed when a safeguarding risk has been identified. The plan will be monitored and a date set for a follow-up evaluation with everyone concerned. We will support all children involved in the incident, including the child/ren who displayed the behaviour and the children who experienced it. Our HSLW will offer ELSA or other support/interventions as required.

Responding to allegations of sexual harassment and sexual violence

Using the DSL's or a deputy's professional judgement, the school will make decisions about and address the incident based on Add information relevant to your school - the Hackett tool, Brook Tool. We will request the support of other agencies, such as children's services and the police, if necessary.

We follow the local safeguarding arrangements below when an allegation of sexual violence and/or sexual harassment has been made.

Moss Lane's school's procedures

1. Manage internally using the behaviour policy and pastoral support.
2. Early help response used for non-violent harmful sexual behaviour to prevent escalation.
3. Refer to children's services when a child has been harmed, is at risk of harm or in immediate danger.
4. Report to the police if a crime has been committed, such as rape, assault by penetration or sexual assault, following the [When to call the police](#) guidance.

The management of children with sexually harmful behaviour is complex. Moss Lane School will work with other relevant agencies to maintain the safety of the whole school community. Where appropriate, immediate measures will be put in place to support and protect the person impacted by the behaviours, any witnesses and the alleged instigator of the behaviours. A written record will be made and next steps discussed, taking into account the views of those impacted by the behaviour.

A risk and needs assessment will be completed for all reports of sexual violence and on a case-by-case basis for reports of sexual harassment. The assessment, which will be kept under review, will consider:

- Whether there may have been other people impacted by the behaviour.
- The person known to be impacted by the behaviour, especially their protection and support.
- The alleged instigator of the behaviour.
- All children (and, if appropriate, staff) at the school, especially any actions that are appropriate to protect them from the alleged instigator or future harm.
- The time and location of the incident and any action that can make the school safer.

Unsubstantiated, unfounded, false or malicious reports

If a report is found to be unsubstantiated, unfounded, false or malicious, the DSL will consider whether the child and/or the person who has made the allegation is in need of help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's services may be appropriate. If a report is shown to be deliberately invented or malicious, we will consider whether any disciplinary action is appropriate according to our behaviour policy.

If a child who has experienced sexual violence or sexual harassment asks the school not to make a referral

If the child does not give consent to share information, the DSL or a deputy will balance the victim's wishes against their duty to protect them and other children on a case-by-case basis. If a child is at risk of harm, is in immediate danger or has been harmed, a referral should be made to children's services, and as assault by penetration (for example rape or penetration with an object) are crimes, reports should be referred to the police. As stated above, a police referral will still be made for children under the age of criminal responsibility.

We will do all we reasonably can to protect the anonymity of any children involved in any report, including weighing up what staff need to know and any support that will be put in place. Further, we will take into account the potential impact of social media in facilitating the spreading of rumours and exposing the child's identity.

Where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system, our DSL and a deputy will be aware of anonymity, witness support, and the criminal process in general so they can offer support and act appropriately. They will be guided by the [CPS: Safeguarding Children as Victims and Witnesses](#) advice.

Concerns about mental health

If you have a mental health concern about a child that is also a safeguarding concern, speak to the DSL or a deputy immediately, unless the child is in immediate danger, in which case you will call the police first.

Although you may be well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one, only appropriately trained professionals should attempt to diagnose a mental health illness. Where necessary, the DSL or a deputy will make a referral to Children's Single Point of Access (CSPA)

Concerns about extremism and radicalisation

Extremism is the vocal or active opposition to our fundamental British values. Radicalisation is the process of a person legitimising support for, or use of, terrorist violence. See [radicalisation and extremism](#) in Appendix 1 for more information.

If you have a concern that a child may be at risk of radicalisation or involvement in terrorism and they are in **immediate danger**, contact the police on 999. If the child is not in immediate danger, speak with the DSL or a deputy as a first point of call.

The DSL may decide to discuss their concerns with children's services and will make referrals to the police Prevent team and/or the Channel programme, where necessary. The DSL will need to seek the individual's consent when referring to the Channel programme.

Prevent referral form to refer cases by e-mail to preventreferrals@surrey.pnn.police.uk . (Email address solely for prevent referrals and not general enquires).

In cases where further advice from the Police is sought dial 101 or 07795 043842 or 01865 555618 and ask to speak to the Prevent Supervisor for Surrey.

Prevent leads

- Claire McDonald, Prevent Supervisor, Surrey Police:
claire.mcdonald@surrey.police.uk - 07795 043842
- Lara Bowden, Project Officer, Surrey County Council:
lara.bowden@surreycc.gov.uk

Department for Education Prevent Coordinator for South-East Prevent.SouthEast@service.education.gov.uk

National Prevent referral form (healthysurrey.org.uk)

Staff and governors can also raise concerns by emailing counter.extremism@education.gsi.gov.uk, but this is not to be used in emergency situations. If you believe you have information relating to terrorism, you can call the anti-terrorist hotline on 0800 789 321. To report extremism in education, including allegations against staff and institutions, use [this link](#)

Confidentiality, Sharing and Withholding Information

Moss Lane School takes our responsibility to protect and look after the data (information) we hold about children and our families seriously. The Data Protection Act (DPA) 2018, the General Data Protection Regulation (GDPR) and the Data (Use and Access) Act 2025 guide us in how to do so. Under the DPA 2018, we will share information without consent if 'the safeguarding of children and individuals at risk' is our reason for doing so, and

- it is not possible to gain consent
- it cannot be reasonably expected that a practitioner (for example, teacher) gains consent, or
- to gain consent would place a child at risk

Staff should be aware that updated statutory information sharing guidance is expected shortly and should continue to follow current safeguarding information-sharing requirements until replacement guidance is issued.

The government's [information sharing advice for safeguarding practitioners](#) supports staff who have to make decisions about sharing information. Staff are aware they can look at the [data protection in schools toolkit](#) or speak to a member of the safeguarding team if they are unsure about sharing information. Government guidance emphasises that: "The Data Protection Act 2018, GDPR and Data (Use and Access) Act 2025 do not prevent, or limit, the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare and protect the safety of children."

Staff are aware that data protection legislation contains provisions which permit the sharing of special category personal data for safeguarding purposes where this is necessary and proportionate to protect a child. Some information may also be subject to a duty of confidentiality. When making decisions about information sharing, staff should consider the legal basis for sharing information and ensure that any sharing is carried out in accordance with data protection legislation. Where staff are unsure, they should seek advice from the Designated Safeguarding Lead, Data Protection Officer, Information Governance Lead or another appropriate manager before making a decision, unless there is an immediate safeguarding risk requiring urgent action.

To keep children safe, we will share information in a timely manner including sharing information with agencies and professionals in line with the Working Together to Safeguard Children 2023 guidance. We respect that safeguarding matters are personal to families, so the DSL, deputy and headteacher will only share information about a child to members of staff and professionals on a need-to-know basis.

All staff are aware that they cannot make a promise to a child to keep secrets that might impact on the child's safety or wellbeing. Instead, staff should tell the child that they may need to pass information on to others who can help and protect them.

Notifying parents or carers

At Moss Lane School working alongside and supporting families is a key priority. This involves being open and transparent with parents and carers when we have concerns about their child's welfare, and/or we need to request support from other services to make sure the child's situation improves. If we believe notifying parents or carers could increase the risk to the child or cause further harm, we will seek advice from children's services about how and when parents or carers should be updated. It is legitimate to share concerns without a parent's or carer's consent when there is good reason to do so and that sharing the information would improve the safeguarding of the child in a timely manner.

Useful links

[Information Sharing](#)

[For organisations | ICO](#)

[Sharing information to safeguard children and young people in the education sector in the UK | ICO](#)

Record Keeping

Each child has a safeguarding file where all safeguarding concerns and referrals are stored. The designated safeguarding lead is responsible for keeping written records of all concerns, discussions and decisions, including the rationale for those decisions. Records reflect the reason why referrals are or are not made to another agency, such as children's services or the Prevent program. Safeguarding files will be stored securely, and access will be limited to those who need it. You may wish to include details of how they are stored and who has access.

When a child leaves Moss Lane School the DSL will make sure that their safeguarding file is transferred to the new education school or college within 5 days of an in-year transfer or within 5 days of the start of a new term. This will be securely transferred separately from their main file, and a confirmation of receipt will be requested and kept. Where appropriate, the DSL will share information in advance of the child transferring particularly where the information would support an assessment of risk to others in the school as well as the individual pupil, so support can be put in place ready for when the child starts. When a child starts our school, we will make sure key staff are aware of the safeguarding file as soon as possible.

Concerns or allegations made about adults in our school

If you have a low-level concern or have an allegation to make about a member of staff (see the definition for staff on page 9) presenting a risk to children, speak to the headteacher as soon as practically possible. This includes any concerns in school, out of school, online and/or offline.

Moss Lane School has clear procedures for managing allegations against staff, supply staff, volunteers and contractors, in accordance with *Keeping Children Safe in Education (KCSIE) 2026*. All staff are expected to recognise, report and respond appropriately to any allegation, concern or behaviour that may indicate that an adult working in or on behalf of the school has behaved in a way that is inconsistent with the school's Staff Code of Conduct or may pose a risk to children. Concerns and allegations will be managed promptly, appropriately and confidentially, with referral to the Local Authority Designated Officer (LADO) where the relevant harm threshold is met or where advice is required. Low-level concerns will be reported, recorded and managed in accordance with the school's agreed procedures. Moss Lane's School full Procedure for Dealing with Allegations Against Members of Staff and Low-Level Concerns Policy can be found in Appendix 1 of this policy.

[Surrey's LADO procedure](#) will be followed where it is alleged that anyone working in the school that provides education for children under 18 years of age, including supply staff, trainee teachers, volunteers and contractors or another adult who works with children has:

- behaved in a way that has harmed a child, or may have harmed a child and/or
- possibly committed a criminal offence against or related to a child and/or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

The last bullet point above includes behaviour that may have happened outside of the school, that might make an individual unsuitable to work with children, this is known as transferable risk.

Where the allegation is in relation to a member of supply staff or trainee teacher, the school will inform the agency/teacher training provider of the process for managing allegations and ensure they are fully involved in enquiries.

The school may also receive an allegation relating to an incident that happened when an individual or organisation was using their school premises for the purposes of running activities for children (for example community groups, sports associations, or service providers that run extra-curricular activities).

In dealing with allegations or concerns against an adult, staff must without delay:

- Report any concerns to the Headteacher/DSL immediately, who will consider whether an onward referral to the LADO is required.
- If an allegation is made against the Headteacher/DSL the concerns need to be raised with the Chair of Governors as soon as possible. If the Chair of Governors is not available, then the LADO should be contacted directly.
- There may be situations when the Headteacher/Chair of Governor will want to involve the Police immediately if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence.
- Once an allegation has been received by the Headteacher/Chair of Governors they will contact the LADO (as part of their mandatory duty) on 0300123 1650 option 3 LADO or Email: LADO@surreycc.gov.uk immediately and before taking any action or investigation.
- Following consultation with the LADO inform the parents/carers of the allegation unless there is a good reason not to.
- In liaison with the LADO, the school will determine how to proceed and if necessary, the LADO will refer the matter to Social Care and/or the Police.
- If the matter is investigated internally, the LADO will advise the school to seek guidance in following procedures set out in part 4 of KCSIE (2026) and the SSCP procedures.

Low-level concerns

The term low-level concern does not mean that it is insignificant. A low-level concern is any concern – no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' - that an adult working in or on behalf of the school may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work and
- does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.

The purpose of reporting low-level concerns is to create and embed a culture of openness, trust and transparency in which the school's values and expected behaviour set out in the staff code of conduct are lived, monitored and

reinforced constantly by all staff. Moss Lane School creates an environment where staff are encouraged and feel confident to self-refer where they have found themselves in a situation.

Reports should be made to the Headteacher in a timely manner. If the headteacher has any doubt as to whether the information which has been shared about the individual as a low-level concern in fact meets the harm threshold, they will consult with the LADO.

[Surrey Safeguarding Children Partnership Procedures Manual Non-recent Abuse Policy](#)

Whistleblowing

A whistleblower is a worker who reports certain types of wrong doing. All staff have a duty to do so. We aim to create an environment where staff feel able to raise concerns about poor or unsafe practice and potential failures in how we manage safeguarding. Any concerns should be raised with the senior leadership team and will be taken seriously. Moss Lane School has a separate whistleblowing policy, which lists the procedures for raising concerns. This is available on staff share and on request.

Whistleblowing regarding the Headteacher should be made to the Chair of Governors whose contact details should be available to staff. If it becomes necessary to consult outside the school, they should speak in the first instance, to the Area Schools Officer or LADO in accordance with the Whistleblowing Policy.

Staff are encouraged to use an external, independent and confidential service provided by Navex Global, who can be contacted on their freephone helpline number 0800 069 8180 and through the [Navex Global web pages](#). Where staff feel unable to raise a concern with our senior leadership team or feel that their genuine safeguarding concerns are not being addressed, there are other options available to them, such as the NSPCC whistleblowing advice line. Staff can call 0800 028 0285 from 8am-8pm or email: help@nspcc.org.uk.

Online safety and the use of smart devices

This section summarises Moss Lane whole school approach to online safety and the use of smart devices (e.g., mobile phones, smart watches, tablets etc). Our detailed approach is covered in our Online safety, Mobile phone and electronic devices, Acceptable Use and staff code of conduct policies that can be found in the school's policy folders in staff share. Moss Lane understands the significant and essential role that we have in making sure children are protected from potentially harmful and inappropriate online material. We consider online safety in every aspect of school life.

Our aim is to:

- Have in place online safety processes that protect our children and staff including how we identify, intervene in and escalate online concerns, where appropriate.
- Make sure technology is used responsibly and safely through education.
- Set clear expectations for the use of mobile phones and smart technology.

We fulfil our aims by:

- Ensuring appropriate filtering and monitoring systems are in place on the school's network and devices.
- Educating children to learn how to keep themselves safe when online (using the government's [Teaching online safety in schools](#) guidance), what to do if they are harmed or spot a risk and what the consequences are if they break the school rules about online safety.
- Engaging with parents and carers about what online safety looks like.
- Making sure our whole school approach is reflected in all relevant policies.
- Regularly training staff on online safeguarding risks and how to be online safely.
- Making sure children, staff, parents/carers, governors and volunteers sign an understandable acceptable use agreement that covers how they should use the school's IT systems and their mobile and smart technology.
- Making parents, carers, children and staff aware that staff can search an electronic device they have confiscated. See [Searching, Screening and Confiscation](#). (this doesn't really happen I nan infant school)

Due to the constant changes to online technology and the related harms, we will carry out an annual review and risk assessment of our online safety policies, procedures and systems.

NB: See the online safety review section in KCSIE to access a vast range of resources to support you in carrying out this review.

The breadth of issues classified within online safety is considerable and ever evolving, but can be categorised into four areas of risk, content, contact, conduct and commerce.

The 4Cs

Being online can be a great source of fun, entertainment, communication and education. Some people's online behaviour places others at risk. The number of issues covered under online safety is large and constantly growing. They are categorised into these four areas of risk:

Content: being exposed to illegal, inappropriate or harmful content, for example: pornography, racism, misogyny, self-harm, suicide, antisemitism, radicalisation, extremism, extreme sexual or physical violence, misinformation, disinformation (including fake news) and conspiracy theories.

Contact: being subjected to harmful online interaction with other users or generative AI applications that simulate this; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes.

Conduct: online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images including those generated using AI and online bullying.

Commerce: risks such as online gambling, inappropriate advertising, phishing and/or financial scams. If children or members of staff report any issues, we will report it to the Anti-Phishing Working Group (<https://apwg.org/>).

Mobile phones and smart technology (including smart watches and glasses)

Many children have unlimited and unrestricted access to the internet via mobile phone networks; therefore, children could be harmed or harm others online when at school. This may include sexually harassing, bullying and the making or sharing of nudes or semi-nudes (often via large chat groups). To protect children from these risks while they are at Moss Lane School, our approach to mobile and smart technology (including watches and 'Meta' glasses) is, we do not allow children to use personal mobile phones, smartwatches and/or fitness watches during school hours. In school we use only electronics supplied by the school.

All schools should be mobile phone-free environments by default; anything other than this should be by exception only. The statutory mobile phones in schools guidance states that schools should develop a mobile phone policy, as part of their behaviour policy, that prohibits the use of mobile phones and other smart technology with similar functionality to mobile phones (for example the ability to send and/or receive notifications or messages via mobile phone networks or the ability to record audio and/or video) throughout the school day, including during lessons, the time between lessons, breaktimes and lunchtime. Signpost to the school's mobile phone policy in this section and ensure the section is consistent with your policy.

For schools that provide early years, this policy must cover how mobile phones, cameras and other electronic devices with imaging and sharing capabilities are used in the school. This guidance may provide some help: [Safeguarding children and protecting professionals in early years settings: online safety considerations](#)

Media recordings, audio, image and video (including digital files)

When we make media recordings of children, such as taking videos or photos, we will get the child's and their parents'/carers' consent, make sure the child is appropriately dressed and encourage the child to tell us if they are worried about any media that has been taken of them. See our staff code of conduct and online safety policy, which cover our school's expectations for staff making media recordings.

Parents and carers are welcome to take photographs and video recordings of their own children during school events and performances. However, these images and recordings are for personal and private use only. To safeguard all children, parents and carers must not upload, publish, share or distribute any images, videos or recordings taken at school events on social media platforms, websites, messaging services, or any other public or private online forum where other children may be identifiable. The school reserves the right to remind individuals of this expectation and take appropriate action where concerns arise.

Filtering and monitoring

To limit children's exposure to online risks from [name of school's] IT systems, we have strong and effective filtering and monitoring systems, following the government's [Meeting digital and technology standards in schools and colleges guidance](#). We will also follow the government's [Plan technology for your school](#) guidance to self-assess against the filtering and monitoring standards and receive personalised recommendations on how to meet them. We will make sure that:

- Specific staff have assigned roles and responsibilities to manage systems.
- Staff know about the systems in place and how to escalate concerns.
- There are annual reviews of the systems, or more frequently if there is a significant change or issue.
- Our governing body reviews the systems with the DSL, IT staff and service providers, to find out what more can be done to keep children safe.
- The systems are effective for the age range of children and consider children potentially at greater risk of harm.
- When we block online content, it does not impact teaching and learning.
- Filtering works across all devices including mobile devices and smart technology

Remote education

When our children are being taught remotely e.g., at home, we will be in regular contact with parents and carers. We will make sure parents and carers are aware of:

- What their child/ren are being asked to do online, including the sites they will be accessing and who from the school will interact with their child/ren.
- The importance of children being safe online and offering advice on how to do so.
- What systems our school uses to filter and monitor online use.

Information security and access systems

We have procedures in place to protect our IT systems and staff and learners from cybercrime, i.e. when criminals seek to exploit human or security vulnerabilities online to steal passwords, data or money directly. We will follow the government's [Cyber security standards for schools and colleges guidance](#) which were developed to help us improve our resilience against cyber-attacks. Our procedures and systems are reviewed regularly to keep up with the constant changes to cyber-crime technologies.

Children are taught about online safety throughout the curriculum, and all staff receive online safety training which is regularly updated. The school's online safety co-ordinator is Olivia Clare.

The school will follow the guidance around [harmful online challenges and online hoaxes](#) when supporting children and sharing information with parents/carers.

Children with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime. If there are concerns about a child in this area, the DSL will consider a referral into the [Cyber Choices](#) programme.

This programme aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests.

[Using AI in education settings: support materials - GOV.UK](#)

Children potentially at greater risk of harm

At Moss Lane School, we know that all children need to be protected from harm. In addition, we recognise that some groups of children are potentially at greater risk of harm. The information below highlights some of the groups of children this applies to, however there are several other groups not listed.

Staff recognise that racism, discrimination and prejudicial behaviour can have a significant impact on a child's emotional wellbeing, mental health, sense of safety and educational outcomes. Incidents of racism, discriminatory

behaviour or hate-related abuse will be taken seriously, appropriately recorded, investigated and considered as potential safeguarding concerns where a child's welfare may be affected.

Children who have a social worker

Children may need a social worker due to safeguarding or welfare needs. Children may need help due to abuse, neglect and/or complex family circumstances. Moss Lane School recognises that a child's difficult experiences and trauma can leave them vulnerable to further harm, as well as disadvantaging them educationally.

Children's services share with us which children have a social worker. Once we are aware of this information, we will use it to make decisions in the child's best interest, i.e., their safety, welfare and educational outcomes. When a child has a social worker, safeguarding is at the heart of every decision we make, such as how we react to unauthorised absence or children missing education, which themselves carry additional risks. When necessary, we offer extra in-school support to our children who have a social worker, such as - list what pastoral or educational support is on offer.

The Virtual School is a statutory service that exists to provide advice and support for children who have a social worker, children placed in care and previously looked after, such that they have the opportunity to meet their full educational potential. Where needed, our school works with the Virtual School to support these children.

Children looked after and previously looked after

These children are particularly vulnerable. The most common reasons for children becoming looked after is as a result of abuse and/or neglect. Staff will have the skills and knowledge to keep children looked after and previously looked after safe. Appropriate staff will have the information they need in relation to a looked-after child's legal status. For example, who has parental responsibility, who is not permitted to have contact and who is not permitted to know where the child is being educated, and the level of decision-making power the local authority has given the carer. The designated teacher for children looked after is insert name. The designated governor/trustee for children looked after is insert name.

The statutory guidance [Designated teacher for looked-after and previously looked after children](#) contains further information on the role and responsibilities of the designated teacher. The designated teacher ensures that the school has the up-to-date details of the allocated social worker and the Virtual School headteacher in the local authority that looks after the child. The Virtual School has an additional role of managing extra funding which is used to support children looked after. The designated teacher will work with the Virtual School Head to discuss how the funding can be used to best support the child.

Useful links:

[Surrey Children's Services Procedure Manual Supporting the Education and Promoting the Achievement of Children with a Social Worker, Looked After and Previously Looked After Children](#)
[Promoting the education of children with a social worker and children in kinship care arrangements: virtual school head role extension](#)

Young Carers

At Moss Lane School we are alert to the needs of young carers and recognise that caring responsibilities can impact on their attendance, attainment, behaviour and wellbeing. Early identification of these children is essential. We will liaise with appropriate services including additional support from external partners or the local authority and health services, to ensure young carers receive the right support at the right time.

Children with special educational needs, disabilities and health issues

Our Special Educational Needs Co-ordinator (Gilly Forbes patching) and DSL (Victoria Abbott) work closely together to safeguard and support children who have special educational needs and disabilities (SEND), in particular when there are any reports of abuse. Our safeguarding curriculum, i.e. the ways we teach children to keep themselves and others safe, is adapted to meet the needs of children with SEND.

Examples of how you make the learning material accessible are:-

- Use Plain Language.
- In class support (depending on need)
- Provide Multiple Formats
- Support Different Learning Styles
- Ensure Digital Accessibility
- Scaffold Instructions and Tasks
- Language Support- use of widget
- Encourage Peer and Teacher/ELSA Support

- Regular check-ins via our designated teacher

Moss Lane School is aware that children with SEND or certain medical or physical health conditions can face additional safeguarding challenges both online and offline, such as:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration.
- These children being more prone to peer group isolation or bullying (including prejudice-based bullying), than other children.
- The potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs, and the communication barriers and difficulties in managing or reporting these challenges.
- The need for intimate care or that these children are isolated from others and are more likely to be independent on adults for care
- Cognitive understanding – being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in schools, or the consequences of doing so.

We offer additional pastoral support for children with SEND, including

1. Key Worker Support
2. Safe Spaces or Quiet Zones
3. Personalised Wellbeing Plans
4. Regular Emotional Check-ins
5. Social Skills and Friendship Groups
6. Increased Home-School Communication
7. Access to Specialist Staff
8. Adapted Transitions Support
9. Therapeutic Interventions
10. Anti-Bullying and Inclusion Support

Useful links:

[Surrey Safeguarding Children Partnership Procedures Manual Children with Disabilities/Complex Needs](#)

Safeguarding children with medical conditions

Incidents relating to the management of a pupil's medical condition (including allergies) will not normally require a safeguarding referral. However, Moss Lane School will consider a referral where concerns indicate that a child may be at risk of neglect, abuse, or exploitation because of their medical condition. This may include situations where important medical information is withheld from the school or where a child is repeatedly sent to school without essential medication, placing them at risk. Staff will follow the school's procedures for supporting pupils with medical conditions and report to the Designated Safeguarding Lead (DSL) where safeguarding concerns arise.

Useful links:

[Supporting pupils with medical conditions at school - GOV.UK](#)

[Allergy safety in schools - GOV.UK](#)

Children who are lesbian, gay or bisexual

Staff at Moss Lane School know that a child or young person being lesbian, gay, or bisexual is not in itself a risk factor for harm but they can sometimes be vulnerable to discriminatory bullying. We will take steps to prevent discriminatory bullying and put appropriate sanctions in place where this has been reported.

Children who are questioning their gender

Moss Lane School recognises that some children and young people may question their gender and may require support, understanding and careful consideration. The welfare, wellbeing and safeguarding of the child will always be the primary consideration in any decision-making. Responses will be individualised and based on the child's age, needs, wishes, circumstances and best interests. Staff will listen respectfully, respond sensitively and avoid making assumptions, while remaining alert to any safeguarding concerns, vulnerabilities, mental health needs, bullying, online harms or other risks that may affect the child.

Moss Lane School will normally work in partnership with parents/carers when supporting a child who is questioning their gender. However, where involving parents/carers could place a child at risk of significant harm, appropriate

safeguarding procedures will be followed, and advice will be sought from the DSL. Any requests relating to social transition or other significant changes will be considered carefully on a case-by-case basis, with decisions informed by safeguarding considerations, professional judgement and, where appropriate, advice from relevant agencies. The school will take all reasonable steps to protect children who are questioning their gender from bullying, harassment, discrimination, abuse and victimisation and will maintain appropriate records of concerns, decisions and support arrangements.

Identified areas of risk for our school

Some of the identified risk we have at our school:

- Parental acrimony
- Lack of local family support networks
- Lack of parental supervision- (children that play and online)
- DV
- Substance abuse
- Mental health
- Neglect -emotional and physical, affluent neglect
- Limited access to external mental health services (e.g., Mindworks or other professionals wait times)
- Some poor information sharing between private nurseries
- Lack of SEND specialist provision/support
- Increasing number of SEND/EAL children
- Areas on the school site where children feel unsafe
- Road safety-the school is situated on a busy road side road and children walk to the nearest car park

As school, we share community partnership intelligence using the community partnership intelligence form [Partner services | Surrey Police](#) or via the Youth Engagement Officers to make our neighbourhood police aware of any information of concern we receive about the local area. The DSL attends the triannual Police and Education Intelligence Briefings.

Lettings and off-site arrangements

Please refer to our school's letting policy, the office can give you a copy).

When services or activities are provided by the governing body, under the direct supervision or management of our school staff, the safeguarding procedures listed in this policy will apply. This may not be the case when we hire or rent out our school to other organisations or individuals, such as community groups, sport associations and extra-curricular activities providers. We will make sure there are arrangements in place to keep children safe, regardless of whether they are children at our school.

To make sure the provider has the appropriate safeguarding arrangements in place, we will follow the government's [Keeping children safe during community activities, after-school clubs and tuition non-statutory guidance](#). This includes checking that the provider has completed the essential pre-employment checks on their staff and that their staff are suitable to be around children. Where appropriate, we will seek assurance and check their safeguarding policies and procedures, as well as establish what the arrangements are for the provider to liaise with our school on safeguarding matters. We will terminate our agreement with the provider if they do not follow the safeguarding requirements listed in the agreement.

Extended school and off-site arrangements

Where extended school activities are provided and managed by the school, our own safeguarding and child protection policy and procedures apply. When our children attend off-site activities, we will ensure that effective child protection arrangements, informed by thorough risk assessments, are in place.

When our children attend an alternative provision provider, we continue to be responsible for their safety and wellbeing. We will satisfy ourselves that the placement can meet the child's needs and obtain written confirmation that appropriate safeguarding checks have been carried out on individuals working at the establishment, i.e., checks that we

would otherwise perform on our own staff. This includes written confirmation that the alternative provider will inform us of any arrangements that may put the child at risk (i.e., staff changes), so that we can ensure ourselves that appropriate safeguarding checks have been carried out on new staff. We will always know where a child is based during school hours. This includes having a record of the address of the alternative provider and any subcontracted provision or satellite sites the child may attend. We will regularly review the alternative provision placements we make. Reviews will be at least half termly to provide assurance that the child is regularly attending, and the placement continues to be safe and meets the child's needs. Where safeguarding concerns arise, the placement will be immediately reviewed, and terminated, if necessary, unless or until those concerns have been satisfactorily addressed. We follow the [statutory guidance for alternative provision](#).

Where a parent/carers expresses their intention to educate their child at home (also known as elective home education), we will work together with the parent/carers and other professionals to ensure that this decision has been made in the best interests of the child. We recognise that this is particularly relevant for children who have SEND, are vulnerable and/or have a social worker.

Training

Designated safeguarding lead

The designated safeguarding lead will attend regular training to prepare and assist them in leading the school's safeguarding response and approach. Additional training or research may be required as local, or school specific safeguarding issues arise. Minimally, the designated safeguarding lead will:

- That on appointment, the DSL and DDSL initially undertake Surrey DSL 'New to Role' with 'Refresher' training at least every two years as well as attending DSL network events, to refresh knowledge and skills.
- Stay up to date with safeguarding knowledge, resources and changes.
- Have a good understanding of, and form a good relationship with, the Surrey Safeguarding Children Partnership by attending the triannual DSL Network events, sharing the learning with staff as appropriate and making sure staff are aware of any safeguarding training on offer.
- Attend harmful sexual behaviour and Prevent awareness training.
- Receive and share safeguarding (including online safety) updates (for example, via email, e-bulletins, and staff meetings) with staff.
- Make sure staff have regularly updated safeguarding training, updating staff who miss training at the earliest opportunity.
- Gain an understanding of how the school's filtering and monitoring systems work and how they can be best used to keep children safe at Moss Lane School.

Governors/Trustees

All governors receive safeguarding and child protection training (including online safety) at induction, which prepares them for testing and challenging the school's procedures and policies, making sure they are working as they should.

The training will be regularly updated. Further:

- The governing body/board of trustees will make sure the designated safeguarding lead has the time and resources to attend training.
- The chair of governors/chair of trustees will receive training about managing allegations against the headteacher to assist them in the eventuality that an allegation is made.
- The governing body/board of trustees will make sure that online safety is a theme in all staff training.
- Senior members of the board will make sure that those involved with the recruitment and employment of staff to work with children have received appropriate safer recruitment training.
- The link safeguarding governor/trustee will make sure that staff and governors/trustees attend safeguarding training at induction and regularly after that. The link safeguarding governor/trustee will attend regular training and receive e-bulletins or equivalent to stay up to date with the latest statutory guidance.

We are a maintained school. The governing body will make sure at least one member of every recruitment panel has completed safer recruitment training within the last five years. Moss Lane School has a separate safer recruitment policy that explains what safeguarding checks are completed before employment to make sure those who work with children are suitable.

Useful links:

[Check a teacher's record](#)

[Individuals prohibited from managing or governing schools](#)

All staff

Governors recognise the expertise that staff build up by managing safeguarding concerns on a daily basis and, as a result, have the opportunity to contribute to and shape staff training and this policy. All staff receive safeguarding and child protection training (including online safety) at induction. The training is regularly updated and reflects the whole school approach to keeping children safe. In addition, staff receive regular, at least annual, safeguarding updates (for example, via email, e-bulletins and staff meetings) to provide them with what they need to keep children safe.

Our training ensures that staff:

- Can spot the signs of possible abuse, neglect and exploitation.
- Know the school's safeguarding procedures and their role in carrying them out.
- Have awareness of and understand their role in the early help process and the process for making a referral to the local authority's children's services, including what may follow after a referral.
- Know what to do if a child tells them they are being harmed, including how to manage this information confidentially.
- Understand the reasons why children may not feel ready or know how to tell someone that they are being harmed.
- Receive Prevent training, which will prepare them for identifying children at risk of being radicalised into terrorism and how to challenge extremist ideas.
- Receive training to recognise, respond to and record incidents involving racism, discrimination, prejudice and hate-related behaviour, including where these form part of child-on-child abuse.
- Understand what cyber security the school has in place to keep children and staff safe when online at school and how to report any issues.
- Understand what ineffective filtering and monitoring systems look like and how to report any concerns or issues.
- Know that children who identify as or are perceived to be lesbian, gay, bisexual or questioning their gender can be targeted by other children.
- Know what to do if they have concerns about a member of staff (including supply staff, trainee teachers, volunteers and contractors) posing a risk of harm to children.

We make sure that staff members provided by other agencies and third parties, for example supply teachers and contracted staff (such as catering staff) are aware of this policy, our school's safeguarding procedures, and have received appropriate safeguarding training.

All staff and governors have regular yearly safeguarding training and also weekly updates. All volunteers meet with the deputy DSL who provides basic safeguarding training upon induction. The headteacher receives training about managing allegations against staff to assist them in the eventuality that an allegation is made.

The designated teacher for children who are looked after (CLA) (Gilly Forb Patching)

We follow the [Role and responsibilities of the designated teacher's](#) statutory government guidance. The designated teacher will have training to make sure they understand the needs of children looked after/previously looked after and how they can best be supported to have the same opportunities as their peers. They will work closely with [Surrey Virtual School](#) accessing their training and forums to stay up to date.

Teaching, Learning and the Curriculum

At Moss Lane School, we are committed to safeguarding and promoting the welfare of all children. We recognise that safeguarding is everyone's responsibility and that children learn best when they feel safe, valued and respected. We also recognise the importance of teaching children how to keep themselves and others safe, both in school and beyond.

Our curriculum is inclusive and accessible to all pupils, including those with SEND, vulnerable learners and children who may have experienced abuse, neglect or trauma.

Safeguarding is embedded throughout our curriculum and wider school life. It is taught explicitly through Personal, Social, Health and Economic Education (PSHE), Relationships and Sex Education (RSE), Computing, Science, Physical Education and SMSC (Spiritual, Moral, Social and Cultural) education. Safeguarding themes are also reinforced through assemblies, circle time, wellbeing activities, educational visits, visitor workshops, themed weeks and enrichment opportunities.

Children are taught about:

- healthy and respectful relationships
- kindness, empathy and inclusion
- personal boundaries and consent
- recognising trusted adults and seeking help
- online safety and digital citizenship
- bullying, prejudice and discrimination
- mental health and emotional wellbeing
- body confidence and self-esteem
- equality and protected characteristics
- managing risk and making safe choices
- recognising abusive behaviour, including coercive and controlling behaviour
- sexual harassment, sexual violence and why such behaviour is always unacceptable
- how to report concerns and access support

Online safety is taught in every year group each half term and is woven throughout the curriculum. The school uses resources from Childnet, CEOP's Thinkuknow programme and other recognised organisations to help children develop the knowledge and skills needed to navigate the online world safely.

To support our preventative safeguarding curriculum, the school works with a range of specialist agencies and organisations. These may include Surrey Police Community Engagement Officers, the Fire and Rescue Service, School Nursing Team, Childnet, Papyrus, NSPCC and other approved providers who deliver workshops and assemblies on topics such as online safety, healthy relationships, emotional wellbeing, personal safety, fire safety and mental health. Children are taught age-appropriate body safety through the NSPCC PANTS programme (Pantosaurus) and lessons linked to the RSE curriculum. Further information about our provision can be found in the school's RSE Policy, PSHE Policy, Online Safety Policy and on the school website.

The school promotes pupil voice and leadership through opportunities such as School Council, Wellbeing mentors and other pupil leadership roles. These initiatives help children develop confidence, responsibility and an understanding of how to contribute positively to a safe school community.

Safeguarding information is shared regularly with parents and carers through the Headteacher's Newsletter, school website, parent workshops and information evenings. Topics may include online safety, the Zones of Regulation, healthy relationships, attendance, mental health and local safeguarding concerns. The school also supports national safeguarding campaigns and awareness events, including Anti-Bullying Week, Children's Mental Health Week, Safer Internet Day and Healthy Schools initiatives. Where safeguarding issues emerge locally or nationally, the Headteacher and safeguarding team will review and adapt the curriculum to ensure children receive timely and relevant education about current risks and protective behaviours.

Disclosures During PSHE and RSE Lessons

Teachers and other staff delivering PSHE, RSE or safeguarding lessons will establish clear ground rules to provide a safe and respectful learning environment. Pupils will be reminded not to share personal experiences or details that could place themselves or others at risk.

If a child makes a safeguarding disclosure during a lesson, staff will listen carefully, remain calm and follow the school's safeguarding procedures. Staff will not promise confidentiality and will explain that information may need to be shared with the Designated Safeguarding Lead (DSL) in order to keep the child safe. Any concerns or disclosures will be recorded and reported promptly in accordance with the school's Child Protection and Safeguarding Policy.

- Risk Assessment
- Substance Misuse Policy
- Whistleblowing
- Young Carers
- Bereavement and loss

Types of abuse and specific safeguarding concerns

These appendices are based on the Department for Education's KCSIE guidance.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children. Children may also cause harm to other family members, often referred to as child to parent or care giver abuse.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only in so far as they meet the needs of another person. It may include verbal abuse, such as persistent criticism, belittling, or name-calling, as well as not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: Involves forcing, causing or inciting a child to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, such as acts of penetration, whether that is with part of a person's body or an object (e.g., rape or assault by penetration), and non-penetrative acts such as masturbation, kissing, rubbing, and touching over clothing. Sexual abuse may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online as well as offline, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. Children can be sexually abused within the family, an institution or a community setting, and are more likely to know their abuser than not. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it. There are specific offences for children under 13, who can never provide valid consent to sexual activity and there are specific offences which make clear that sexual activity with a child under 16 is an offence, regardless of whether they agreed to that activity.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

We use the following guidance to help identify and address cases of neglect.

[Abuse & Neglect - Surrey Safeguarding Children Partnership](#)

[Graded Care Profile 2](#)

[Surrey Neglect Screening Tool](#)

[Surrey Safeguarding Children Partnership Procedures Manual Recognising Abuse and Neglect Handling Cases of Affluent Neglect in Schools](#)

Indicators of abuse

The following list, provided by the [NSPCC](#), covers some common indicators of abuse and neglect.

- unexplained changes in behaviour or personality
- becoming withdrawn
- seeming anxious
- becoming uncharacteristically aggressive
- lacks social skills and has few friends, if any
- poor bond or relationship with a parent
- knowledge of adult issues inappropriate for their age
- running away or going missing
- always choosing to wear clothes which completely cover their body
- patterns of repeated lateness or absence

It is important that staff report all of their concerns, however minor or insignificant they may think they are – they do not need ‘absolute proof’ that the child is at risk.

Specific safeguarding concerns

This section is based on Annex B of KCSIE. Annex B includes further information about other safeguarding issues to be aware of. All concerns under this section should be addressed in line with the [What to do if you have concerns about a child's welfare section](#) of this document, unless stated otherwise.

Children absent from education

All staff will be aware that children missing from education or persistently absent, without explanation and/or for prolonged periods can act as a vital warning sign to a range of safeguarding issues including neglect, child sexual and child criminal exploitation - particularly county lines. Further, it may also indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of FGM, so called ‘honour’-based abuse or risk of forced marriage. We are also aware that absence can increase any existing safeguarding risks.

Attendance is closely monitored at Moss Lane School to support us in identifying abuse and acting early. Our staff will be aware of our school's unauthorised absence and children missing education procedures. We notify children's services if a child who has a social worker is absent from school without a suitable explanation. To support the school's procedure for addressing children missing or absent from education, we make sure we have more than one emergency contact number for each child. We work in partnership with Surrey County Council Inclusion Service when patterns of absence give rise to concern, including notifying them when a child leaves our school without a new school being named.

Our attendance policy and procedures are set out in a separate document, which can be found on the school website under policies. The school follows the government's [Working together to improve school attendance](#) statutory guidance which sets out how schools must work with the local authority children's services where school absence indicates safeguarding concerns.

[Inclusion Service - Pupils missing out on education \(PMOOE\) \(Surrey Education Services\)](#)

[Children Missing Education statutory government guidance](#)

[Surrey Safeguarding Children Partnership Procedures Manual Children Missing Education](#)

Anti-Bullying

Our setting's policy on anti-bullying is on the school website under policies. It sets measures to prevent bullying (including cyberbullying, prejudice-based and discriminatory bullying).

We keep a record of known bullying incidents which is shared with and analysed by the Governing body/Proprietor/Management Committee. All staff are aware that children with SEND and/or children who identify as Lesbian, Gay, Bisexual, or questioning their gender, those from minority ethnic backgrounds, children open to children's services and children from low-income families are more susceptible to being bullied/victims of child abuse.

Risks can be compounded where children who have additional vulnerabilities lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced and create a culture where they can speak out or share their concerns with members of staff.

[Preventing bullying - GOV.UK](#)

[Guidance for schools on colleges on gender questioning children](#) (currently in draft, to be finalised)

Physical Intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is at immediate risk of harming themselves or others, and that at all times it must be the minimal force necessary to prevent injury to another person. Such events should be fully recorded and signed by a witness.

Staff who are likely to need to use physical intervention will be appropriately trained in Positive touch- Crisis Prevention Institute (CPI) techniques. Staff understand that physical intervention of a nature which causes injury or distress to a child may be considered under child protection and/or disciplinary procedures.

We recognise that sometimes touch is appropriate in the context of working with children, and all staff have been given safe practice guidance to ensure they are clear about their professional boundaries.

When applying disciplinary measures such as physical intervention or isolation for children with SEND the setting will consider the risks, given the additional vulnerabilities of these children.

Contextual safeguarding

Contextual safeguarding, also known as 'risk outside the home', is an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships.

Moss Lane School will maintain records of concerns about contextual safeguarding in accordance with our safeguarding procedures. We know the importance of information sharing, therefore if we identify contextual safeguarding concerns about the local area we will share this information with relevant partners. If there is a specific concern about a child, we will consult with children's services.

Useful links:

[Tackling Child Exploitation multi-agency Practice Principles](#)

[Contextual Safeguarding Network webpages](#)

Child sexual exploitation (CSE) and child criminal exploitation (CCE)

We know that different forms of harm often overlap, and that perpetrators may subject children and young people to multiple forms of abuse, such as criminal exploitation (including financial exploitation and county lines) and sexual exploitation. In some cases, the exploitation or abuse will be in exchange for something the victim needs or wants (for example, money, gifts or affection), and/or will be to the financial benefit or other advantage, such as increased status, of the perpetrator or facilitator and/or through violence or the threat of violence.

Both can occur online. Children can be exploited by adult males or females, as individuals, an organised network or gang, and the victim may identify as being part of this group. CCE and CSE can affect children both male and female and can include children who have been moved (trafficked). This may constitute modern slavery. They may also be exploited by other children, who themselves may be experiencing exploitation. Where this is the case, it is important that the child perpetrator is also recognised as a victim. Our staff will be aware of a range of factors that could make a child more vulnerable to exploitation. We will provide additional support to children who have been exploited to help keep them in education.

Some of the following can be indicators of both child criminal and sexual exploitation where children:

- appear with unexplained gifts, money or new possessions
- associate with other children involved in exploitation
- suffer from changes in emotional well-being
- misuse alcohol and other drugs
- go missing for periods of time or regularly come home late

- regularly miss school or education or do not take part in education

Child sexual exploitation (CSE)

CSE is a form of child sexual abuse which can affect any child. Sexual abuse may involve physical contact, including assault by penetration (for example, rape or penetration with an object) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse, including via the internet.

CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge, for example through others sharing videos or images of them on social media. CSE can affect any child who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. This can be committed by an individual or an organised network. Most sexual abuse is committed by those previously known to the victim. Some children may not realise they are being exploited, for example believing they are in a genuine romantic relationship.

CSE can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence. Some additional specific indicators that may be present in CSE are children who:

- have older boyfriends or girlfriends
- suffer from sexually transmitted infections, display sexual behaviours beyond expected sexual development
- become pregnant

See the [Sharing nudes and semi-nudes](#) section below for details about 'sextortion'.

Child criminal exploitation (CCE)

At Moss Lane School, we recognise children involved in CCE are victims, despite their engagement in crime. A child may have been criminally exploited even if the activity appears to be consensual. Staff will be aware that girls are at risk of criminal exploitation too, and that both boys and girls who are being criminally exploited may be at higher risk of sexual exploitation.

Children can become trapped by this type of exploitation, as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. CCE can include children being forced and/or manipulated:

- to work in cannabis factories.
- into moving drugs or money across the country (county lines).
- to shoplift or pickpocket.
- to threaten serious violence to others.
- into committing vehicle crime.

Serious violence

Staff at Moss Lane School will be aware that serious violence may involve physical assault, carrying, threatening with, or using weapons, often in the context of peer conflict or bullying and can also be associated with criminal exploitation. Staff will report any concerns about a child carrying or using a weapon (or expressing intent to do so) to the DSL or DDSL. Staff will be aware of the indicators, which may signal children are at risk from, or are involved in serious violence.

These may include:

- increased absence from school.
- a change in friendships or relationships with older individuals or groups.
- a significant decline in performance.
- signs of self-harm or a significant change in wellbeing.
- signs of assault or unexplained injuries.
- unexplained gifts or new possessions (could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation).

All staff are aware of the range of risk factors increasing the likelihood of involvement in serious violence, such as:

- being male.
- having been suspended, spent time in Alternative Provision or permanently excluded from school.
- having experienced child maltreatment.
- having been involved in offending, such as theft or robbery.

Being the victim of, carrying out or allegedly carrying out serious violence (e.g. knife crime) may indicate that a child is involved in county lines.

Children who run away or go missing from education, home or care

Moss Lane School recognises that children who run away, go missing or are absent from education and their normal residence are potentially vulnerable to abuse, exploitation, offending and placing themselves in situations where they may suffer physical harm. The statutory guidance Children Who Run Away or go Missing from Home or Care requires that every child or young person who runs away or goes missing must be offered a return home interview (RHI) within 72 hours of their return.

Useful links:

[Multi agency risk assessment conferences | Healthy Surrey](#)

Mental health

With mental health problems, a child might find the ways they are frequently thinking, feeling or reacting becoming difficult, or even impossible, to cope with. Mental health problems affect around 1 in 6 children. [name of school] recognises that mental health problems can, in some cases, develop into safeguarding concerns. This could include self-harm, suicidal ideation or risk of suicide. They could also be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be trained to recognise the signs of a child who may be experiencing a mental health problem. If a child is struggling with their mental health, self-harming, has an eating disorder or is experiencing suicidal ideation and making plans to end their life, there are likely to be potential warning signs.

These could include:

- significant changes in behaviour
- ongoing difficulty sleeping
- withdrawing from social situations

- not wanting to do things they usually like
- physical signs of self-harm or neglecting themselves.

Moss Lane School aims to promote positive mental health for all staff and children. To do so, we take into account the government's [Mental health and behaviour in schools' guidance](#). We will ensure early targeted support is provided and liaise with/refer to specialist services where needed. The DSL will consider whether to inform parents/carers to support the child's wellbeing, where doing so would not place the child at additional risk.

Our mental health leads are: Victoria Abbott and Oliva Clare.

We have two trained mental health first aiders: Victoria Abbott and Oliva Clare.

We have one trained ELSA: Gilly Forbes Patching

We have one member of staff who has a senior mental health practitioners' qualification: Victoria Abbott

We have a mental health pathway plan to support children who are struggling with their mental health and wellbeing. This can involve support from our HSLW, Drawing and talking or other interventions. As a school twice a year we do the Boxall Profile for all our children to highlight any that might need additional support as well staff flagging children that they notice who present as needing support

Domestic Abuse

Domestic abuse can include a wide range of behaviours and may be a single or pattern of incidents. This form of abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional, and includes coercive or controlling behaviour. It can take place inside and outside the home. The [Domestic Abuse Act 2021](#) states that children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse including physical, sexual, emotional abuse and stalking).

These experiences can have a serious and long-term impact on a child's health, well-being, development and ability to learn. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. The Act states that domestic abuse occurs between at least two people over the age of 16. Therefore, legally, some older children can also commit domestic abuse either in their own intimate relationships or against their parents/carers.

Moss Lane School has signed up to the police initiative [Operation Encompass](#), a scheme between Surrey Police, Surrey Domestic Abuse Service and Surrey schools. The system ensures that when the police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the DSL in the school before the child or children arrive at the school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable immediate support to be put in place, according to the child's needs.

[Domestic abuse: specialist sources of support - GOV.UK](#) (includes information for adult victims, young people facing abuse in their own relationships and parents experiencing child to parent violence/abuse)

Homelessness

Moss Lane School recognises that being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL is aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Indicators that a family may be at risk of homelessness include household debt, including new poverty induced by the pandemic; rent arrears; domestic abuse and antisocial behaviour; and/or the family being asked to leave a property. If a child has been harmed or is at risk of harm, a referral to children's social care will be made.

Useful links:

[Homelessness Reduction Act Factsheets - GOV.UK](#)

Child-on-child abuse (including harassment and violence)

We recognise that children can abuse other children, often referred to as child-on-child abuse. It can happen inside and outside school and online. This can include, but is not limited to:

- bullying including cyberbullying, prejudice-based bullying, discriminatory bullying).
- abuse between children in an intimate relationship.
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (including when a child encourages or threatens physical abuse online).
- physical assault and harm, or the threat of harm with a weapon
- sexual violence, such as rape, assault by penetration and sexual assault (including when a child encourages or threatens this online).
- harmful sexual behaviour, sexual violence and sexual harassment – which may include misogyny/misandry.
- sexual harassment, such as sexual comments, jokes and online sexual harassment.
- consensual and non-consensual making or sharing of nudes and semi-nudes, including those generated using AI.
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- upskirting and initiation/hazing type violence and rituals.

Older children may use any type of child-on-child abuse to 'recruit' younger children into gangs, especially in areas where gangs are prevalent. Young people experiencing child sexual exploitation first hand may be forced to 'recruit' other young people using types of child-on-child abuse. We are aware that boys are more likely to carry out child-on-child abuse and girls are more likely to be impacted by it, but all child-on-child abuse is unacceptable and will be taken seriously.

Moss Lane School does not tolerate child-on-child abuse. We know that even when there are no reported cases, it could still be happening but yet to be reported. We do not downplay child-on-child abuse, especially sexual violence and sexual harassment, as "just banter", "just having a laugh", "part of growing up" or "boys being boys" as this can lead to a culture of unacceptable behaviour, misogyny and an unsafe environment for children. For children to feel safe at our school, we make sure they know child-on-child abuse is not acceptable behaviour and how to report it to a trusted adult if they are experiencing or witnessing it.

All staff are aware that child-on-child abuse is a safeguarding issue for both the victim and alleged perpetrator. Child-on-child abuse is preventable, and staff know how to recognise behaviours and indicators of risk early and that timely, evidence-based support can be key to preventing children from going on to commit abuse or violence.

It is our duty to minimise the risk of child-on-child abuse. We do this in the following ways:

- Our staff read this policy.
- Our staff are trained to spot the signs that a child is, or may be experiencing, child-on-child abuse and how to report it. They maintain an attitude that 'it could happen here'.
- Our staff challenge any inappropriate behaviour between children, including the use of derogatory language.
- The behaviour policy, which includes our whole school response to abuse, makes sure everyone knows how to behave and how to respond consistently when children show unacceptable or abusive behaviour.
- In all areas of school life, such as lessons, assemblies and in the playground, we teach children how to act and to treat other people, including when they are online.
- We have effective systems in place for children to report child-on-child incidents.

- We use the NSPC Pantasaurus program to teach children how to stay safe from sexual harm. We also use the Brooks traffic light to help us identify and behaviours of concern.

Reporting and Responding to Child-on-Child Abuse

Moss Lane School has effective systems in place to enable children to report concerns about the behaviour of other children, including incidents of child-on-child abuse, bullying, harassment, discrimination, inappropriate language, online abuse and sexual violence or sexual harassment. Children are encouraged to speak to any trusted adult in school, including their class teacher, learning support assistant, pastoral staff, the Designated Safeguarding Lead (DSL) or the Deputy Designated Safeguarding Leads (DDSLs).

All concerns and incidents are recorded promptly on the school's safeguarding recording system, CPOMS. The DSL or DDSL will review each concern, assess the level of risk and determine the most appropriate course of action in line with the school's Child Protection and Safeguarding Policy, Behaviour Policy and the principles set out in Keeping Children Safe in Education (KCSIE). Actions may include further investigation, support for those involved, communication with parents/carers, implementation of safeguarding plans, referrals to external agencies where appropriate, and measures to protect victims and prevent recurrence. The school takes all reports seriously and ensures that children are listened to, supported and safeguarded throughout the process.

Child-on-child sexual harassment and sexual violence

Moss Lane School is aware of Ofsted's [Review of sexual abuse in schools and colleges](#). The review was carried out as a result of the large number of testimonies shared on the [Everyone's Invited](#) website, which highlighted the prevalence of sexual harassment and sexual violence.

Moss Lane School takes a zero-tolerance approach to sexual harassment and sexual violence.

We know that harmful sexual behaviour (HSB), sexual harassment and sexual violence can happen between two children of any age or sex, from a group of children to a single child or group of children, online and face to face. It is more likely that girls will be impacted by sexual harassment and sexual violence and more likely it will be perpetrated by boys. HSB exists on a continuum and may escalate into sexual harassment or sexual violence. They are never acceptable, and we will not tolerate them. National and local research has made us aware of the prevalence and normalisation of harassment and abuse in school-aged children. No reports does not mean it is not happening here at Moss Lane School.

Alongside girls, these groups are at higher risk of sexual harassment and sexual violence:

- children with SEND.
- children who are lesbian, gay, bisexual or questioning their gender or who are perceived to be lesbian, gay, bisexual or questioning their gender by their peers.

Children who are victims of sexual harassment and sexual violence will likely find the experience stressful and distressing. This will, in all likelihood, negatively affect their educational attainment and be worsened if the alleged perpetrator(s) attends the same school. If a child reports an incident, they will be reassured that they have done the right thing by telling a trusted adult, will be taken seriously, supported and kept safe. We will further reassure those affected that the law is there to protect them, not criminalise them.

We are aware that when a child reports sexual violence or harassment, this may only be the start of a larger disclosure that could transpire over time. When there are reports, we will always consider the effectiveness of our policies and procedures and whether any changes are necessary to reduce the risk of it happening again. This will be in line with the school maintaining a culture of safeguarding. Moss Lane School follows Part 5 of KCSIE when considering our response to sexual violence and sexual harassment. These are mainly captured in the [child-on-child abuse section](#) of this policy.

Harmful Sexual Behaviour (HSB)

Children's sexual behaviours exist on a continuum. HSB refers to problematic, abusive and violent sexual behaviours that are developmentally inappropriate and may cause developmental damage. HSB can occur online or face-to-face. We will always consider HSB in a child protection context. Moss Lane School recognises that children displaying harmful sexual behaviours have often experienced their own abuse and trauma and they will be offered appropriate support.

When considering HSB, we will take into account the ages and the stages of development of the children. Sexual behaviour between children can be considered harmful if one of the children is much older, particularly if there is more than two years' difference in age, or if one of the children is pre-pubescent and the other is not. However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature.

Our DSL and deputy will:

- have a good understanding of HSB.
- assist in planning the curriculum aimed at preventing HSB.
- ensure staff spot and report inappropriate behaviour to prevent an escalation.
- incorporate our approach to sexual harassment and sexual violence into the whole school approach to safeguarding.

Moss Lane School curriculum addresses these issues via the following topics according to the age and stage of development of our children:

- healthy and respectful relationships
- what respectful behaviour looks like
- gender roles, stereotyping, equality
- body confidence and self-esteem

Useful links:

[Responding to children who display sexualised behaviour](#)

[Sexual development and behaviour in children | NSPCC Learning](#)

[Surrey Safeguarding Children Partnership Procedures Manual- Harmful Sexual Behaviour](#)

[NSPCC Harmful Sexual Behaviours](#)

[Stop it Now](#)

[Shore Space](#)

Upskirting

Moss Lane School will ensure that all staff and children are aware that 'upskirting' is a criminal offence and will not be tolerated. The Criminal Prosecution Service (CPS) defines 'upskirting' as: "a colloquial term referring to the action of placing equipment such as a camera or mobile phone beneath a person's clothing to take a voyeuristic photograph without their permission".

Moss Lane School will decide each incident on a case-by-case basis, with the DSL or a deputy taking a leading role and using their professional judgement, supported by other agencies, such as children's social care and the police, as required.

Sharing nudes and semi-nudes

Staff recognise that some consensual sharing of images may occur between older children of a similar age. While creating, possessing or sharing indecent images of a person under 18 remains unlawful, consensual image sharing may require a different safeguarding response to incidents involving coercion, exploitation, abuse, threats, blackmail or non-consensual sharing. Each case will be assessed individually by the DSL taking into account the context, age of those involved, consent, harm and ongoing risk.

Non-consensual sharing of images is abusive and will always be treated as a safeguarding concern.

This is defined as the sending or posting of nudes or semi-nudes images, videos or live streams online by young people under the age of 18 ([UKCIS, 2024](#)). It is a form of child sexual abuse. All incidents will be dealt with as safeguarding concerns. The primary concern at all times will be the welfare and protection of the children involved. While sharing nudes and semi-nudes of themselves or their peers breaks the law, we know it is important to avoid criminalising young people unnecessarily.

Children might share nudes because of threats and/or pressures from relationships. They might also want to send nudes, but this is usually because they believe they will get something in return. Sextortion is when someone threatens to share or distribute nudes or semi-nude's images of another person if they do not do what is asked. It can happen to anybody, but a large number of cases involve teenage boys. The explicit imagery may be used to blackmail the young

person into sending more images, money, or in some cases, into recruiting more victims. Images can be both real or generated by artificial intelligence.

We are aware of the alert guidance and support provided by the National Crime Agency and CEOP and will use it to respond to incidents.

Preventative Education and Awareness

At Moss Lane School, we recognise that education is a key part of preventing child-on-child abuse, exploitation and harmful behaviours. Through our curriculum and wider safeguarding provision, we teach children how to stay safe online, understand privacy, respect personal boundaries and develop healthy, respectful relationships. Children are supported to understand what information is appropriate to share and what should remain private, both online and offline. We use a range of age-appropriate teaching approaches to help children recognise risks, make safe choices and seek support when needed.

These include:

- scenario-based learning, role play and discussion activities
- online safety lessons delivered through Computing, PSHE and assemblies
- resources from trusted organisations such as CEOP's Thinkuknow programme, the NSPCC and Childnet
- age-appropriate learning linked to the UK Council for Internet Safety (UKCIS) guidance, including teaching about sharing images and personal information safely
- teaching children about privacy settings, digital footprints and responsible use of technology
- reinforcing the importance of consent, respect and personal boundaries
- ensuring children know how and where to report concerns and seek support

The school promotes a culture in which children understand that they should never feel pressured, coerced or tricked into sharing personal information, images or videos. Children are regularly reminded that if they experience inappropriate behaviour or online harm, it is never their fault, and they will be listened to, supported and helped by trusted adults in school. Safeguarding messages are reinforced through lessons, assemblies, themed events, newsletters and workshops for parents and carers.

So-called 'honour'-based abuse, including FGM and forced marriage

So-called 'honour'-based abuse (HBA) means incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage and practices such as breast ironing. We are aware this abuse often involves a wider network of family or community pressure and can include multiple perpetrators. Therefore, we will consult with children's services before taking any form of action to reduce the dynamic and additional risk factors that might be present as a result.

Female genital mutilation (FGM)

Female genital mutilation (FGM) means all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences. The DSL will make sure that staff have appropriate training to prepare them for spotting signs that a child has been affected by FGM or is at risk of FGM.

[What to do if you have concerns about a child's welfare section](#) of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM has been carried out or suspects that a child is at risk of FGM.

Signs that FGM might happen:

- A relative or someone known as a 'cutter' visiting from abroad.
- A special occasion or ceremony takes place where a girl 'becomes a woman' or is 'prepared for marriage'.
- A female relative, like a mother, sister or aunt has undergone FGM.
- A family arranges a long holiday overseas or visits a family abroad during the summer holidays.
- A girl has an unexpected or long absence from school.
- A girl struggles to keep up in school.
- A girl runs away – or plans to run away - from home (NSPCC).

Signs FGM might have taken place:

- having difficulty walking, standing or sitting.
- spending longer in the bathroom or toilet.
- appearing quiet, anxious or depressed.
- acting differently after an absence from school or college.
- reluctance to go to the doctors or have routine medical examinations.
- asking for help – though they might not be explicit about the problem because they are scared or embarrassed ([NSPCC](#)).

Useful information:

[Female Genital Mutilation Statutory Guidance](#)

[Surrey Safeguarding Children Partnership Procedures Manual Female Genital Mutilation](#)

Forced marriage

A forced marriage is non-consensual. Either person could be forced/pressured in several ways, including physically, psychologically, financially, sexually and emotionally. It is a criminal offence in England and Wales.

An arranged marriage is different. The families of both spouses take a leading role in arranging the marriage, but the choice of whether or not to accept the arrangement remains with those who are considered for marriage.

We are aware that the legal age for marriage in the UK has risen to 18, regardless of parental consent. The DSL will follow the local safeguarding procedure and, if necessary, seek advice from the Forced Marriage Unit on 020 7008 0151 if a concern comes to their attention.

Useful information:

[Freedom charity](#)

[Handling cases of forced marriage guidance](#)

[National FGM Centre](#)

[Forced marriage](#)

[Karma Nirvana](#)

One Chance Rule

All staff are aware of the 'One Chance' Rule' in relation to forced marriage, FGM and HBA. Staff recognise they may only have one chance' to speak to a child who is a potential victim and have just one chance to save a life.

Moss Lane school is aware that if the victim is not offered support following disclosure that the 'One Chance' opportunity may be lost. Therefore, all staff are aware of their responsibilities and obligations when they become aware of potential forced marriage, FGM and HBA cases.

Modern slavery is a crime whereby a person uses another person, by means of deception or coercion, as a possession for the purposes of exploitation. We are aware modern slavery exists in the UK and that some victims are children.

Common places modern slavery occurs includes:

- The sex industry, including brothels.
- Retail: nail bars, hand car washes.
- Factories: food packing.
- Hospitality: fast-food outlets.
- Agriculture: fruit picking.
- Domestic labour: cooking, cleaning and childminding.

Victims can be forced into criminal activities such as cannabis production, theft or begging.

The DSL will seek advice and support from children's services who may in turn make a referral to the National Crime Agency via the National Referral Mechanism (NRM). Further advice can be provided directly by the modern slavery helpline on 0800 012 1700.

Useful links:

Private Fostering

Definition: A privately fostered child is a child under 16 (or 18 if disabled) who is cared for by an adult who is not a parent, grandparent, aunt, uncle, step parent (including civil partnerships), sister or brother where the child is to be cared for in that person's home for 28 days or more.

A child who is looked after or placed in any residential home, hospital or school (where they are receiving full-time education) is excluded from the definition. In a private fostering arrangement, the parent retains parental responsibility.

However, Children under 16 who spend more than 2 weeks in residence during holiday time in a school, become privately fostered children for the purposes of the legislation during that holiday period. See also Schedule 8 (para 9) Children Act 1989.

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, (as per section 66(1)(a) and (b) of the Children Act 1989) with the agreement of the child's parents. It applies to children under the age of 16 years old or 18 years old if the child is disabled.

Looked After Children by the local authority or those who are placed in residential settings, children's homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures and children may be privately fostered at any age.

The school recognises that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases. Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

Moss Lane School is aware that, by law, a parent or other persons involved in making a private fostering arrangement must notify children's services as soon as possible. We have a duty to inform children's services of this arrangement if they have not been notified, but we will encourage parents and private foster carers to do so in the first instance. Where a member of staff becomes aware that a child may be in a private fostering arrangement, they will raise this with the DSL and the DSL will notify the C-SPA immediately.

Preventing radicalisation and extremism

While some children are more susceptible, any child can be radicalised into terrorism. We take our statutory duty to prevent children from becoming terrorists or supporting terrorism seriously.

Radicalisation is the process of a person legitimising support for, or use of, terrorist violence. It can occur over a period of time or quickly.

Extremism is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This includes calling for the death of members of the armed forces.

Terrorism is an action that:

- endangers or causes serious violence to a person/people
- causes serious damage to property, or
- seriously interferes or disrupts an electronic system.

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

To prevent children from being radicalised into terrorism, we make sure:

- Our filtering and monitoring systems will prevent and protect children from accessing extremist material.

- Children are taught about British Values and staying safe online via the curriculum.
- Children are provided with a safe space to discuss controversial issues and the skills they need to challenge extremist views.
- Staff are trained to spot the indicators of radicalisation and extremism and how to report concerns as soon as possible.
- The DSL attends Prevent awareness training and is aware of the latest guidance.
- We perform a risk assessment assessing how our learners or staff may be at risk of being radicalised into terrorism (including online) using the counter terrorism local profile and updates from the local partnership.

The [Educate against hate](#) government website lists signs that could indicate that a child is being radicalised:

- becoming increasingly argumentative
- refusing to listen to different points of view
- unwilling to engage with children who are different
- becoming abusive to children who are different
- embracing conspiracy theories
- feeling persecuted
- changing friends and appearance
- distancing themselves from old friends
- no longer doing things they used to enjoy
- converting to a new religion
- being secretive and reluctant to discuss their whereabouts
- changing online identity
- having more than one online identity
- spending a lot of time online or on the phone
- accessing extremist online content
- joining or trying to join an extremist organisation

If you have concerns that a child may be at risk of radicalisation or involvement in terrorism, go to [Concerns about extremism and radicalisation section](#) of this policy.

Child abuse linked to faith or belief

This type of abuse can happen anywhere across any community and/or religion. There are a variety of definitions associated with abuse linked to faith or belief. It can include, but is not limited to, the concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs).
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context).
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits or the use of their body parts is believed to produce potent magical remedies.
- use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation.

If you suspect a case of child abuse linked to faith or belief, follow the safeguarding procedures in this policy. In addition, the Metropolitan Police's Project Violet team can be contacted on the non-emergency, 24/7 number: 101.

Fabricated or induced illnesses

Staff at Moss Lane School are alert to the issues surrounding fabricated or induced illnesses.

Fabricated or induced illness (FII) is a rare form of child abuse. It happens when a parent or carer, usually the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child. Our supporting children with medical needs policy detail our procedure for ensuring reported medical needs are evidenced by medical professionals.

Appendix 1

Procedure for Dealing with Allegations Against Members of Staff and Low-Level Concerns Policy

Moss Lane School is committed to creating a culture in which safeguarding concerns about adults are identified, reported and managed promptly, appropriately and transparently.

This procedure applies to concerns or allegations relating to all adults working in or on behalf of the school, including the Headteacher, teaching and support staff, supply staff, trainee teachers, volunteers, governors, contractors and other adults working with children.

The school follows Part Four of Keeping Children Safe in Education (KCSIE) 2026 and Surrey local safeguarding and LADO procedures when responding to concerns or allegations about adults.

1. Two Levels of Concern

KCSIE distinguishes between:

Concerns or allegations that may meet the harm threshold – where it is alleged that a person working in or on behalf of the school has:

- behaved in a way that has harmed a child, or may have harmed a child;
- possibly committed a criminal offence against or related to a child;
- behaved towards a child or children in a way that indicates they may pose a risk of harm to children; or
- behaved, or may have behaved, in a way that indicates they may not be suitable to work with children.

Concerns that do not meet the harm threshold (low-level concerns) – concerns about an adult's behaviour that may be inconsistent with the Staff Code of Conduct, including inappropriate conduct outside work, but which does not meet the harm threshold. The term *low-level* does not mean that a concern is insignificant. Any concern about an adult's conduct should be taken seriously and reported.

2. Reporting an Allegation or Concern

- Any member of staff who receives an allegation or has a safeguarding concern about another adult working in or on behalf of the school must report it immediately to the DSL/Headteacher.
- Staff must not investigate the matter themselves, question the child repeatedly, interview witnesses or approach the adult who is the subject of the concern.
- Where the concern or allegation relates to the Headteacher, it must be reported directly to the Chair of Governors, without informing the Headteacher.
- Where there is a conflict of interest in reporting the matter to the Headteacher, advice will be sought directly from the Local Authority Designated Officer (LADO).
- If a child is at immediate risk of harm, appropriate emergency safeguarding action will be taken without delay, including contacting the police and/or children's social care where necessary.

3. Allegations That May Meet the Harm Threshold

Where information indicates that the harm threshold may have been met, the Headteacher, or Chair of Governors where appropriate, will follow Surrey's managing allegations procedures and contact the LADO without delay and before undertaking an internal investigation. The school will work with the LADO and, where appropriate, children's social care, the police and other relevant agencies to determine how the matter should be managed.

The welfare and best interests of the child will remain the school's paramount consideration.

The school will also recognise its duty of care towards the person who is the subject of an allegation and will provide appropriate information and support, while maintaining necessary confidentiality.

Suspension will not be an automatic response to an allegation. Any decision about suspension or alternative arrangements will be considered carefully and proportionately, taking account of safeguarding needs and advice from the LADO and other relevant agencies.

4. Low-Level Concerns

A low-level concern is any concern, however small and even if it amounts to no more than a sense of unease, that an adult working in or on behalf of the school may have acted in a way that:

- is inconsistent with the Staff Code of Conduct, including inappropriate conduct outside work; and
- does not meet the harm threshold or is otherwise not considered sufficiently serious to warrant referral to the LADO.

Examples could include being over-friendly with children, having favourites, taking photographs of children contrary to school procedures, engaging with children through personal social media accounts, using inappropriate language or unnecessarily meeting a child on a one-to-one basis in a secluded area or behind a closed door. Staff are encouraged to report concerns about themselves where they believe they may have inadvertently acted in a way that could be misinterpreted or where they find themselves in a situation that may appear compromising to others.

5. Reporting Low-Level Concerns

All low-level concerns should be reported to the Headteacher as soon as reasonably possible. Where a low-level concern relates to the Headteacher, it should be reported to the Chair of Governors. The person receiving the concern will collect sufficient information to determine what happened and whether the behaviour is consistent

- with the Staff Code of Conduct and requires no further action;
- constitutes a low-level concern;
- may meet the harm threshold and therefore requires consideration under the allegations procedure and consultation with the LADO; or
- indicates another issue that should be addressed through appropriate disciplinary, capability, conduct or safeguarding procedures.
- Where there is any doubt about whether the harm threshold has been met, the school will seek advice from the LADO.

6. Recording Low-Level Concerns

- Low-level concerns will be recorded in writing. The record should include details of the concern, the context in which it arose, actions taken, decisions reached and the reasons for those decisions.
- Records will be kept confidential, stored securely and accessed only by those who have a legitimate safeguarding or management reason to do so.
- The Headteacher will review low-level concern records periodically so that any patterns of concerning, problematic or inappropriate behaviour can be identified. The school will also consider whether patterns indicate wider cultural or safeguarding issues or whether policies, training or working practices need to be reviewed.

7. Confidentiality and Information Sharing

- The school will manage allegations and low-level concerns with appropriate confidentiality. Information will only be shared with those who need it in order to safeguard children, undertake their professional responsibilities or manage the concern appropriately.
- Parents and carers will normally be informed about an allegation involving their child where appropriate, subject to advice from the LADO, children's social care and/or police.
- The school will comply with relevant data protection requirements while recognising that data protection legislation does not prevent appropriate information sharing for safeguarding purposes.

8. Supply Staff, Trainee Teachers, Volunteers and Contractors

- Allegations and concerns relating to supply staff, trainee teachers, volunteers and contractors will be managed with the same safeguarding rigour as those relating to directly employed members of staff.
- The school will not cease to use the services of an individual simply because an allegation has been made. Where another organisation is the individual's employer, the school will work with that organisation and the LADO to determine the appropriate action.

9. Whistleblowing

All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures within the school's safeguarding arrangements.

Where a member of staff feels unable to raise a concern through the school's normal procedures, or believes that a genuine safeguarding concern is not being addressed, they should follow the school's Whistleblowing Policy and may seek advice through appropriate external whistleblowing channels.

No member of staff will be disadvantaged for raising a genuine safeguarding concern in good faith.

10. Referrals and Further Action

Where appropriate, the school will fulfil its statutory responsibilities regarding referrals to relevant professional or regulatory bodies, including the Disclosure and Barring Service (DBS) and, where applicable, the Teaching Regulation Agency (TRA). Any referral will be made in accordance with the relevant statutory criteria and guidance.

11. Learning Lessons

At the conclusion of a case, the school will consider whether there are lessons to be learned, regardless of the outcome. This may include reviewing safeguarding procedures, the Staff Code of Conduct, working practices, training, supervision, risk management or the school's wider safeguarding culture. The Governing Body will maintain appropriate oversight of safeguarding arrangements while respecting the confidentiality of individual cases.

12. Related Policies and Guidance

This procedure should be read alongside the school's:

- Safeguarding and Child Protection Policy;
- Staff Code of Conduct;
- Whistleblowing Policy;
- Safer Recruitment procedures;
- Disciplinary procedures;
- Complaints Policy; and
- current statutory guidance, including Keeping Children Safe in Education 2026, particularly Part Four, and Surrey's procedures for managing allegations against adults working with children.
